

Repository

A Repository represents the general location of a [Volume](#).

Repository-ID

A Repository-ID is a String of up to four alphanumeric characters and is permanently assigned at creation.

Each Repository-ID must be unique within its' [Media type](#).

The Repository-ID can be viewed in the Repository Properties Identity tab. To open the Repository Properties window, right click on a Repository, in the bottom of the TapeMaster Inventory window, and click Properties.

Description

A Repository object has a Description field. This allows a user-friendly description of up to twenty alphanumeric characters to be associated with the Repository-ID.
