

Simple Management Rules

Simple Management rules allow automation of a volumes next move date based on matching preset criteria. The rules can filter off Media-ID, Volume-ID, data cluster, from repository and/or to repository values.

Enabling Simple Management

Simple Management can be enabled for a Target Repository, or for a specific Volume.

When enabled at a Repository level, a matching Simple Management Rule must exist with a matching scope for every Volume moved to that Repository.

When enabled for a specific Volume, a Simple Management Rule must exist with a matching scope that for every Repository that the Volume will move to.

Enabling at a Repository level

- Force Simple Management option is set to True.
- As Simple Management sets a Next Move Date, and Volumes are traditionally moved using the [TMSS10MovePending](#) program, it is recommended that the Next Repository option is set to an appropriate value.

Help

Creating a Simple Management Rule

From the required Customer's media type select the Simple Management tab.

Right-click in the main window and select Add, or press Insert on your keyboard.

In the identity tab, insert a description to describe the rule.

The screenshot shows the 'Edit New Simple Management Rule' dialog box with the 'Identity' tab selected. The 'Index/Description' section contains the following fields:

Field	Value
Customer-ID	US04 Nashville Data Center
Index	0
Description	

Under the Options tab insert the scope of the rule:

- Active
- Restore
- Scope
 - Exclusion Days
 - Movement Direction
 - From Repository Filter
 - To Repository Filter
 - Volume Attributes
 - Media-ID Filter
 - Volume-ID Filter
 - Data Cluster

The screenshot shows the 'Edit New Simple Management Rule' dialog box with the 'Options' tab selected. The 'Active' and 'Restore' fields are set to 'True' and 'False' respectively. The 'Scope' section is expanded, showing the following settings:

Field	Value
Active	True
Restore	False
Scope	
Exclusion Days	
Movement Direction	
From Repository Filter	*
To Repository Filter	*
Volume Attributes	
Media-ID Filter	*
Volume-ID Filter	*
DataCluster	<No Selection>

Under the Calculations tab select the rule type: Permanent, Day and/or month, In days, Days of

month/year or restore previous date.

If Day and/or month, In days or Days of month/year is selected you will be presented with extra rule options:

- Rule Options
 - Day of week
 - Of
- Advanced
 - Iterations
 - Adjustments
 - Days
 - Then adjust to
 - Skips
 - Days
 - Holidays
 - Also skip last

Edit New Simple Management Rule
