Volume VeriScore

The VeriScore™ Tab in the Volume Properties Window displays VeriScore™ information for each Volume, including:

- **Scan Date**: The last time the Volume was placed on a VeriScore™ scanner.
- **Mount**: How many times the Volume has been mounted in a drive.
- **Usage %**: The percentage of the Volume that was in use at the time of the scan.
- **VeriScore**: A VeriScore is a numerical value indicating the health of a Volume.
- **Drive**: The drive that a Volume was used in most recently.
- **Volume Status**: Displays information pertaining to where the Volume is in its life cycle.
