Historical events for the volume display summary details on the **History** tab.

For each of these events, the date, time type and locations are listed.

Types of historical events include:

- **Added** - Creation of volume.
- **Deleted** - Deletion or Removal of volume.
- **Target** - New Target location, volume place in a move.
- **Scanned-Out** - Scanning volume out to record leaving current repository.
- **Scanned-In** - Scanning in volume to confirm arrival at target repository.
- **Scratch** - Scratch status (Z flag) added to volume.
- **!Scratch** - Scratch status removed from volume.
- **Date** - Adding next move date to volume.

History Details

Right clicking on a historical entry, or double clicking, and selecting Details will open a **History**

Details window.

The screenshot shows a window titled "History Details" with a close button (X) in the top right corner. Below the title bar is a navigation bar with a left arrow button, a progress indicator showing "Page 2 of 11", and a right arrow button. The main content area is divided into several sections, each with a collapse/expand icon (a small square with a minus/plus sign) and a title:

- When**: A table with fields: Date (Tuesday, June 12, 2018 (0 days ago)), Time (09:18:51), UTC Offset (600 minutes), Time at source (Tuesday, June 12, 2018 - 09:18:51), and Time Zone (AUS Eastern Standard Time).
- User**: A table with fields: User-ID (doco) and User Name (empty).
- Using**: A table with fields: IP Address (127.0.0.1:1), Interface (TapeTrack TapeMaster), and Operating System (Windows).
- Miscellaneous**: A table with fields: Next Move (Permanent) and Fields Updated (empty).
- Repository**: A section with two sub-sections:
 - From**: A table with a collapse/expand icon and a field: Relative Repository (Scratch Volumes).
 - To**: A table with a collapse/expand icon and a field: Relative Repository (Library).

At the bottom right of the window is an "OK" button.

This provides a more verbose listing of the historical entry including:

- Dates and Times including UTC offset, source time and time zone.
- User performing the action including IP, TapeTrack software and operating system.
- Next Move date
- Locations including to, from and zone information if applicable.

Exporting History

To export historical entries, select required entry or range select entries (ctrl + click, shift + click), right click and select Export and follow prompts to export to required file type.
