

Volume Identity

The **Identity** tab of the volumes properties displays the volume's unique identification Attributes including Customer-ID, Media-ID and Volume-ID as well as other data specific to the volume's identity.

The **Volume Attributes** panel displays:

- Customer-ID and Description.
- Media-ID and Description.
- Volume-ID.

The **Volume-ID** is set on creation of the **Volume** and is then, in normal operation, a non editable field as are the **Customer-ID** and **Media-ID** fields.

The center panel shows a barcode image of the **Volume-ID**.

Expanding the lower section **Update Statistics** (C) displays information of when, where and who created the **Volume**. These values are captured automatically on creation of the **Volume** and are non editable fields.
