

Volume Identity

The Identity tab of the [Volumes](#) properties displays the [Volume's](#) unique identification Attributes including [Customer-ID](#), [Media-ID](#) and [Volume-ID](#) as well as other data specific to the volume's identity.

The **Volume Attributes** panel displays:

- [Customer-ID](#) and [Description](#).
- [Media-ID](#) and [Description](#).
- [Volume-ID](#).

The [Volume-ID](#) is set on creation of the [Volume](#) and is then, in normal operation, a non editable field as are the [Customer-ID](#) and [Media-ID](#) fields.

The center panel shows a barcode image of the [Volume-ID](#).

Expanding the lower section **Update Statistics** displays information of when, where and who created the [Volume](#). These values are captured automatically on creation of the [Volume](#) and are non editable fields.
