Remove barcode suffix
If the scanned barcode has a suffix of this value then remove it (max length 3)

Save Cancel Help

Options

[String pattern](#), up to 3 characters long, to match against and remove from the scanned barcodes.

Examples

With a [String pattern](#) of L6 will remove the suffix from barcode 100234L6, to scan as 100234.

With a [String pattern](#) of L* will remove the suffix from barcode 100234L4, 100234L6, or any barcode ending in L? (where ? is a wild card to match one character)
