Scratch Mode

The Repository Option `Scratch Mode` allows the automatic setting of the Scratch Flag when a Volume is Confirmed into the Repository.

Scratch Mode Options

The Scratch Mode comprises of three options:

- `No Change` (default) leaves the Scratch Flag status of the Volumes as they are.
- `Scratch` adds the Scratch Flag (Z) to the Volumes as they are confirmed into the Repository.
- `Unscratch` removes the Scratch Flag (Z) to the Volumes as they are confirmed into the Repository.
