

Repository Option: Scratch Mode

The [Repository](#) Option Scratch Mode allows the automatic setting of the Scratch Flag when a Volume is Confirmed into the [Repository](#).

Scratch Mode Functions

The Scratch Mode comprises of three options:

- No Change (default) leaves the Scratch Flag status of the [Volumes](#) as they are.
- Scratch adds the Scratch Flag (Z) to the [Volumes](#) as they are confirmed into the [Repository](#).
- Unscratch removes the Scratch Flag (Z) to the [Volumes](#) as they are confirmed into the [Repository](#).
