Sort Sequence

The Repository Option `Sort Sequence` allows the display order of the Repositories to be customized.

To set the sort sequence, right click the required Repository and select `Properties`.

Adjust the Sort Sequence value to determine the sort order and click `Save` to update.

Sort Sequence Options

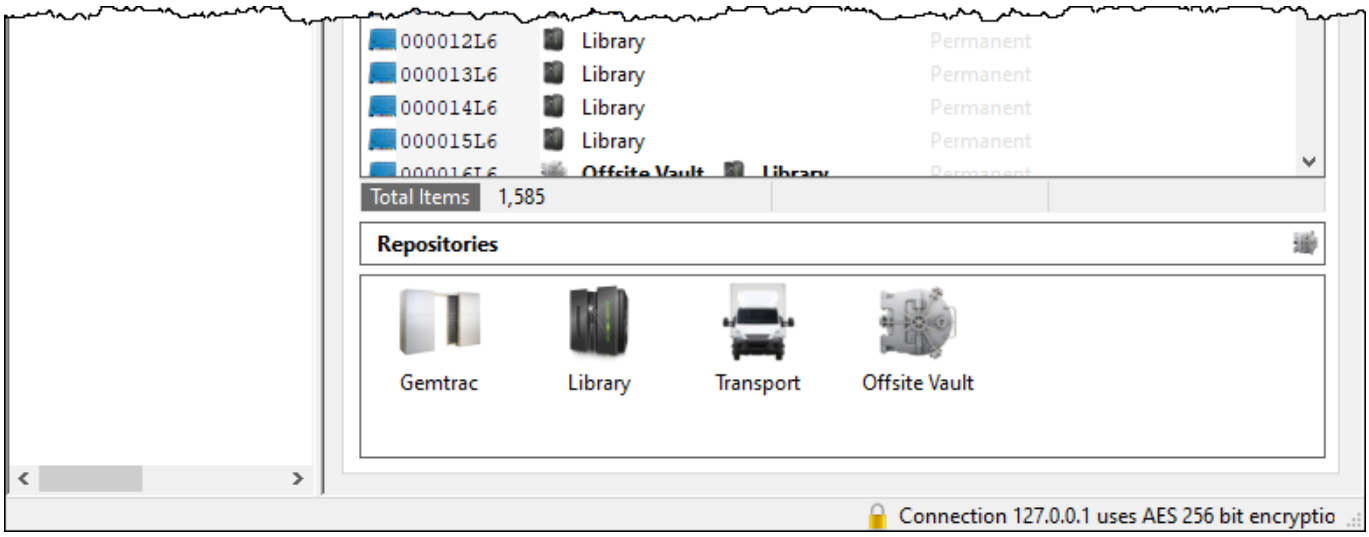

The `Sort Sequence` is set numerically from 0 to 255.

Repositories will be displayed in numerical order, lowest to highest, left to right.

The `Sort Sequence` values do not have to be sequential.

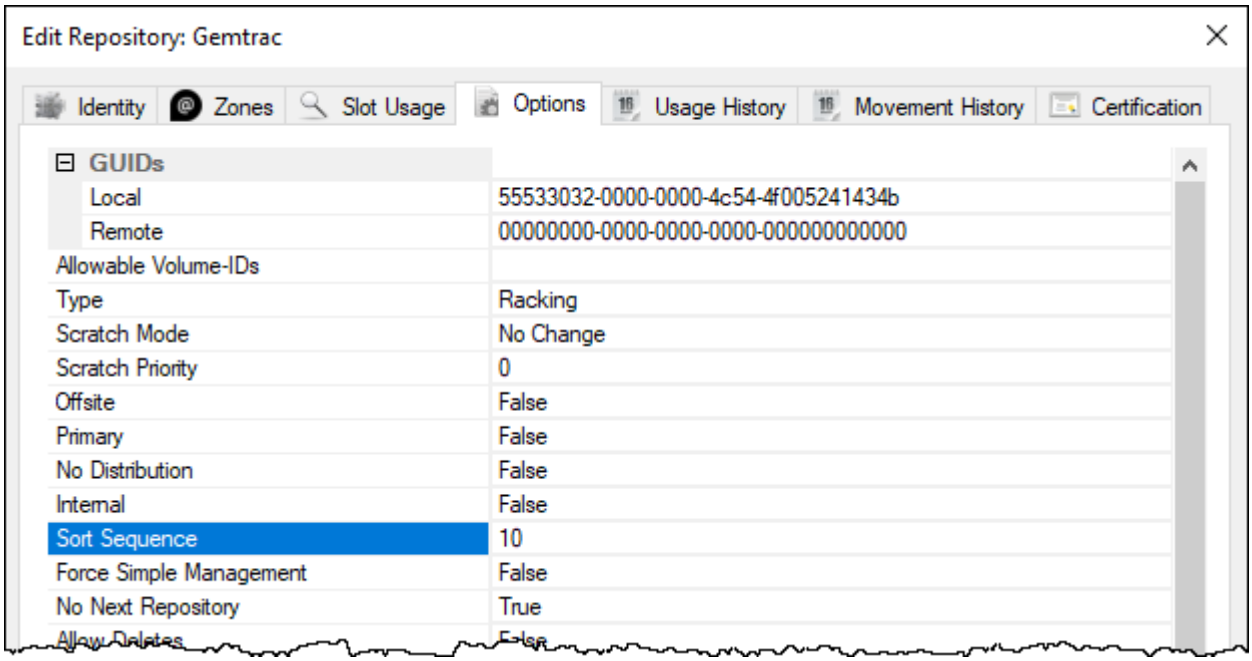

Example Sorting Order

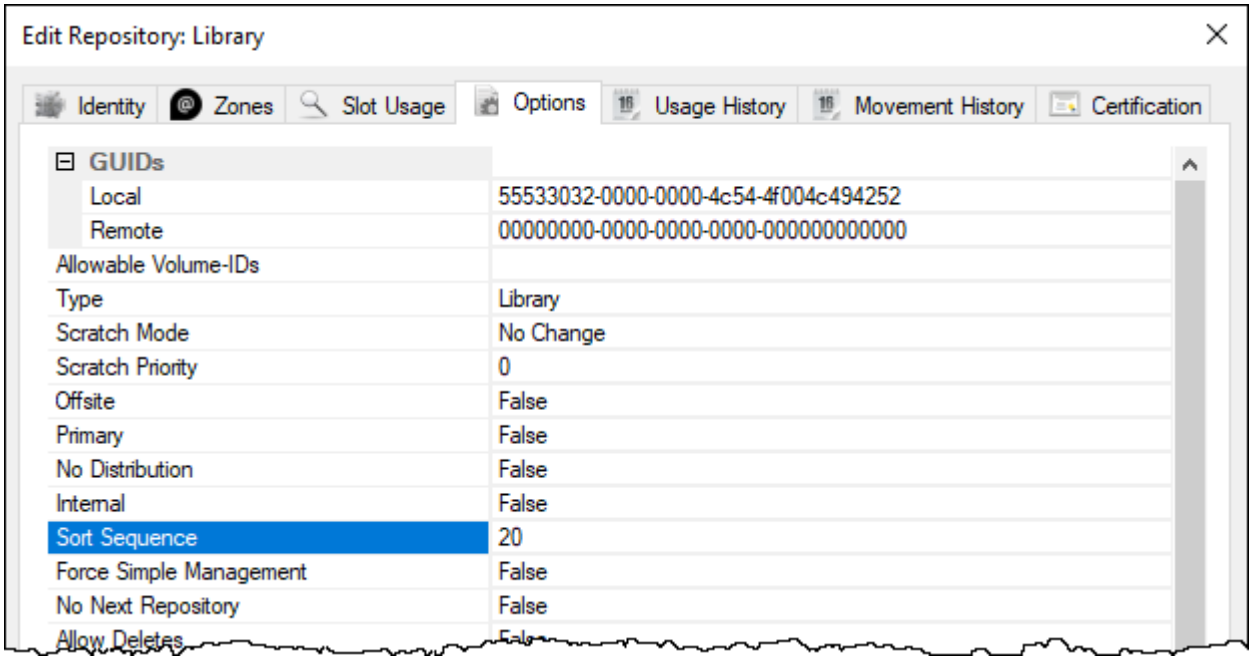

TapeMaster Display
