

Installing Linux x86

Prerequisites

Redhat based Linux operating system:

- RedHat
- CentOS
- Fedora
- Oracle Linux
- ClearOS

Linux dependency libraries: glibc.i686 zlib.i686 libstdc++.i686

Download and Install Linux rpm's -TapeTrack Framework Server

The two installation packages required for TapeTrack Server - Linux are:

[Client RPM Package](#)

[Server RPM Package](#)

Always install the Client RPM package first as the Server RPM package depends on files located within the Client RPM package.
