Downloading the Software

32 and 64 Bit Versions

TapeTrack Sync is available for both the 32 and 64 Bit architectures.

While the 32 Bit version will run on the x64 architecture, it is recommended that if you are using an 64 Bit version of Windows that you install the 64 Bit version.

Downloading the Software

The software can be downloaded from:

- Windows 32 Bit
- Windows 64 Bit
- AIX
- HP UX
- IBMi
- Solaris SPARC
- Solaris x-86
- zOS

Installation

Windows

The TapeTrack TapeMaster Software installs automatically via an InstallShield installer.

Click setup.exe to start the install.

AIX Linux and IBMi

The software is packaged using Redhat Package Manager (RPM). To invoke the installation simply enter the command

rpm -i tapetrack-clients-2013.3.1.rpm

File name shown is an example only. Replace with the file name of your downloaded version.

If you do not have RPM installed on your system a tar archive can be supplied on request.
