

Assign Slot using Volume Properties Target Repository Tab

Volumes in a move to or currently confirmed in to the Target Repository you will only need to have the Slot number set.

Volumes not in a move to or currently confirmed in to the Target Repository you will need both the Target Repository as well as the Slot number set.

Opening Volume Properties

Double click the required Volume or right click and select Properties and select the Target Repository tab.

The screenshot shows the TapeTrack TapeMaster™ (GazillaByte) application window. The interface includes a menu bar (File, Administration, Favorites, Tools, View, Help) and a Customer Filter. The left sidebar displays a tree view of the production environment, including GazillaByte - Production, US00 - United States, US01 - New York, US02 - Los Angeles, CONT - Contingency, LTO - LTO Cartridge, and US03 - North Carolina. The main area shows the Volumes tab for the Los Angeles Data Center LTO Cartridge. A table lists volumes with columns for ID, Current Location, Target Location, Next Move, and Description. The table contains 16 rows of data. Below the table, there are summary statistics: Total Items 1,604, Total Selected 1, and First Selection 42. The bottom section shows the Repositories tab with icons for Gemtrac, Library, and Offsite Vault. The status bar at the bottom indicates a connection to 127.0.0.1 using AES 256 bit encryption.

ID	Current Location	Target Location	Next Move	Description
000000I6	Library		Permanent	
000001I6	Gemtrac		Thursday, ...	Weekly
000002I6	Library	Offsite Vault	Permanent	Monthly
000003I6	Rack A [1.3]		Friday, No...	Monthly
000004I6	Library		Permanent	Monthly
000005I6	Rack A [1.5]		Friday, No...	Monthly
000006I6	Library	Rack A [2.1]	Permanent	Monthly
000007I6	Library	Rack A [2.3]	Permanent	Scratch
000008I6	Library		Permanent	Weekly
000009I6	Offsite Vault		Permanent	Weekly
000010I6	Library		Permanent	Scratch
000011I6	Library	Offsite Vault	Permanent	Weekly
000012I6	Library		Permanent	Scratch
000013I6	Library		Permanent	Scratch
000014I6	Library	Rack A [1.2]	Permanent	Weekly
000015I6	Library		Permanent	Scratch

Set Repository And Slot Allocation

From the Volume Properties window select the Target Location tab.

Setting Repository And Slot

Click in the field Repository under the section Virtual Location and select the required Repository.

Click Yes to the Repository Changed dialog to open the Slot Selection window.

Select an unallocated Slot and click OK to close the window.

Click Save on the Volume Properties window to commit the updated data.
