

TapeMaster Configuration File

To modify TapeMaster, open TMSSMaster.cfg in a plain text editor such as Notepad.

TMSSMaster.cfg can be found in the TapeTrack/TapeMaster install directory (default C:\Program Files\TapeTrack\TapeTrack TapeMaster).

Remove Slot Level Display

Locate the section **variables**

```
TMSSMaster.cfg - Notepad
File Edit Format View Help
options = {
    //
    // When exporting data to email send to the following addresses
    //
    email = [ "emailto1@tapetrack.com", "emailto2@tapetrack.com" ];

    /*
    variables = {
        TMSSLEVELNAMES = "A,B,C";
    };
    */

    showparent = true;
};

defaults = {
```

Remove comment tags /* & */ from above and below variables.

Change the line of code

TMSSLEVELNAMES = "A,B,C";

to

TMSSNOLEVELSLOT = "true";

```
TMSSMaster.cfg - Notepad
File Edit Format View Help

options = {
    //
    // When exporting data to email send to the following addresses
    //
    email = [ "emailto1@tapetrack.com", "emailto2@tapetrack.com" ];

    variables = {
        TMSSNOLEVELSLOT = "true";
    };

    showparent = true;
};

defaults = {
```

and save file
