TapeMaster Configuration File

To modify TapeMaster, open TMSSMaster.cfg in a plain text editor such as Notepad. `TMSSMaster.cfg` can be found in the TapeTrack/TapeMaster install directory (default `C:\Program Files\TapeTrack\TapeTrack TapeMaster`).

Remove Slot Level Display

Locate the section **variables**

Remove comment tags /* & */ from above and below variables.

Change the line of code
TMSSLEVELNAMES = “A,B,C”;
to
TMSSNOLEVELSLOT = “true”;

TMSSMaster.cfg - Notepad

File Edit Format View Help

```
options = {
   //
   // When exporting data to email send to the following addresses
   //
   email = [ "emailto1@tapetrack.com", "emailto2@tapetrack.com" ];

   variables = {
       TMSSNOLEVELSLOT = "true";
   };

   showparent = true;
};

defaults = {
```

and save file

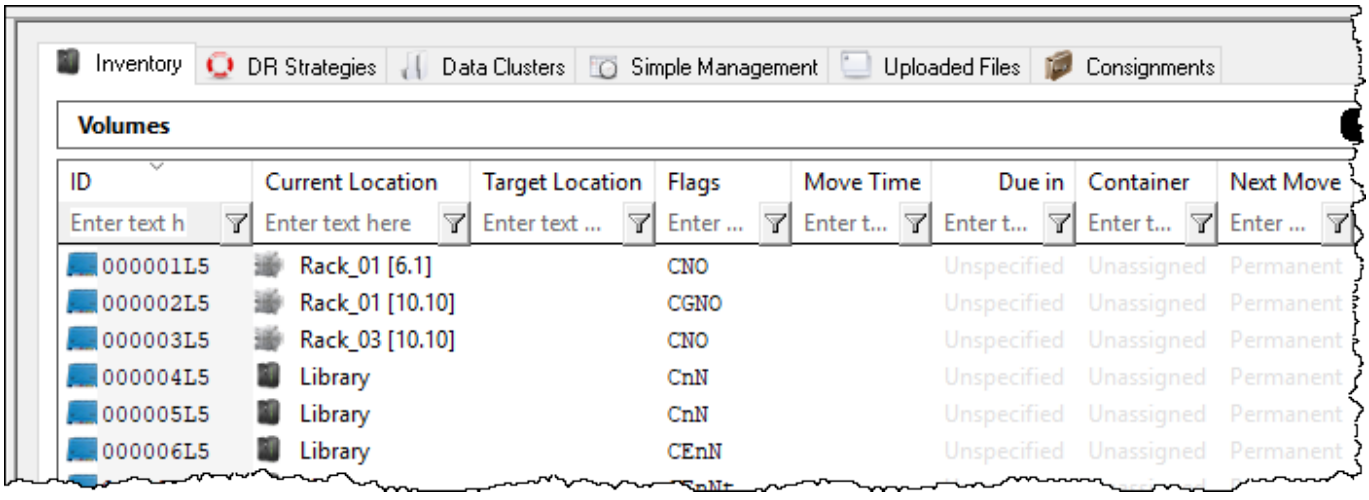

Make sure that you have sufficient rights to save file to directory and to save as TMSS10Master.cfg or TMSSLite.cfg and not as a text file or other file extension.

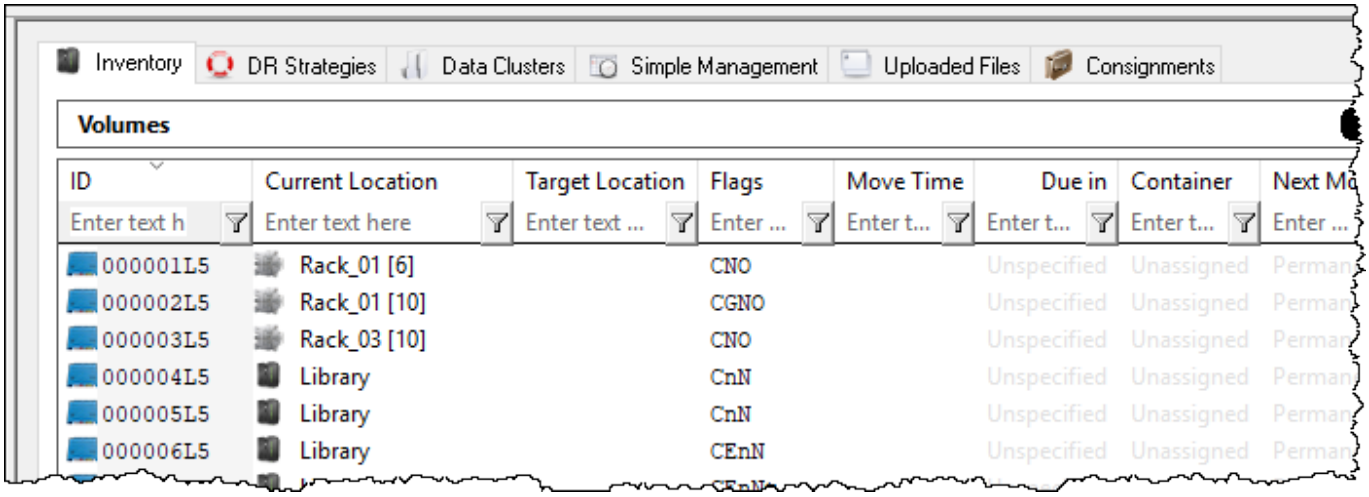

To check the modification was successful:

Login to TapeMaster and open slotted media to check display of volume location is now restricted to Zone and shelf as illustrated by the images below.

Before modification - TapeMaster displaying Zone, shelf and slot.

After modification - TapeMaster displaying Zone and shelf only.
