TapeMaster Configuration File

To modify TapeMaster, open TMSSMaster.cfg in a plain text editor such as Notepad. `TMSSMaster.cfg` can be found in the TapeTrack/TapeMaster install directory (default `C:\Program Files\TapeTrack\TapeTrack TapeMaster`).

The config file has comments throughout the code to either disable the execution of unused code blocks or add explanation to the available functions. *Block quotes look like /* */, anything between these characters are treated as comments and not code. Anything after the characters // are treated as comments and not code for that line.</note> ===== Remove Slot Level Display ===== Locate the section* ***variables***

Remove comment tags / & */ from above and below variables. Change the line of code*
TMSSLEVELNAMES = "A,B,C";
to
TMSSNOLEVELSLOT = "true";

TMSSMaster.cfg - Notepad

File Edit Format View Help

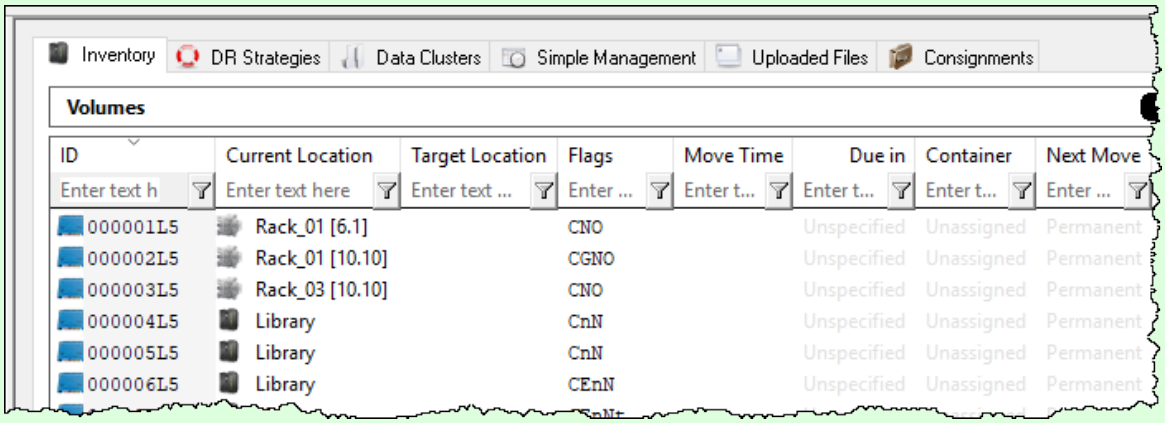

```
options = {
   //
   // When exporting data to email send to the following addresses
   //
   email = [ "emailto1@tapetrack.com", "emailto2@tapetrack.com" ];

   variables = {
       TMSSNOLEVELSLOT = "true";
   };

   showparent = true;
};

defaults = {
```

and save file. <note important>Make sure that you have sufficient rights to save file to directory and to save as TMSS10Master.cfg and not as a text file or other file extension.</note> To check the modification was successful: Login to TapeMaster and open slotted media to check display of volume location is now restricted to Zone and shelf as illustrated by the images below. Before modification - TapeMaster displaying Zone, shelf and slot.

After modification - TapeMaster displaying Zone and shelf only.

*<note important>If when opening TapeTrack TapeMaster you receive an error - **Failed to read configuration file (TMSSMaster.cfg): Line( ) - Syntax error** check the configuration file that you have used plain ASCII quotes (“ ”) and not rich text quotes (“ ”) and that the replaced text is correct.</note>*
