TapeMaster Configuration File

To modify TapeMaster, open TMSSMaster.cfg in a plain text editor such as Notepad.

`TMSSMaster.cfg` can be found in the TapeTrack/TapeMaster install directory (default `C:\Program Files\TapeTrack\TapeTrack TapeMaster`).

The config file has comments throughout the code to either disable the execution of unused code blocks or add explanation to the available functions.

Block quotes look like /* */, anything between these characters are treated as comments and not code.

Anything after the characters // are treated as comments and not code for that line.

Remove Slot Level Display
