Export License

While logged into TapeMaster as tapemaster, or user-ID with tapemaster rights

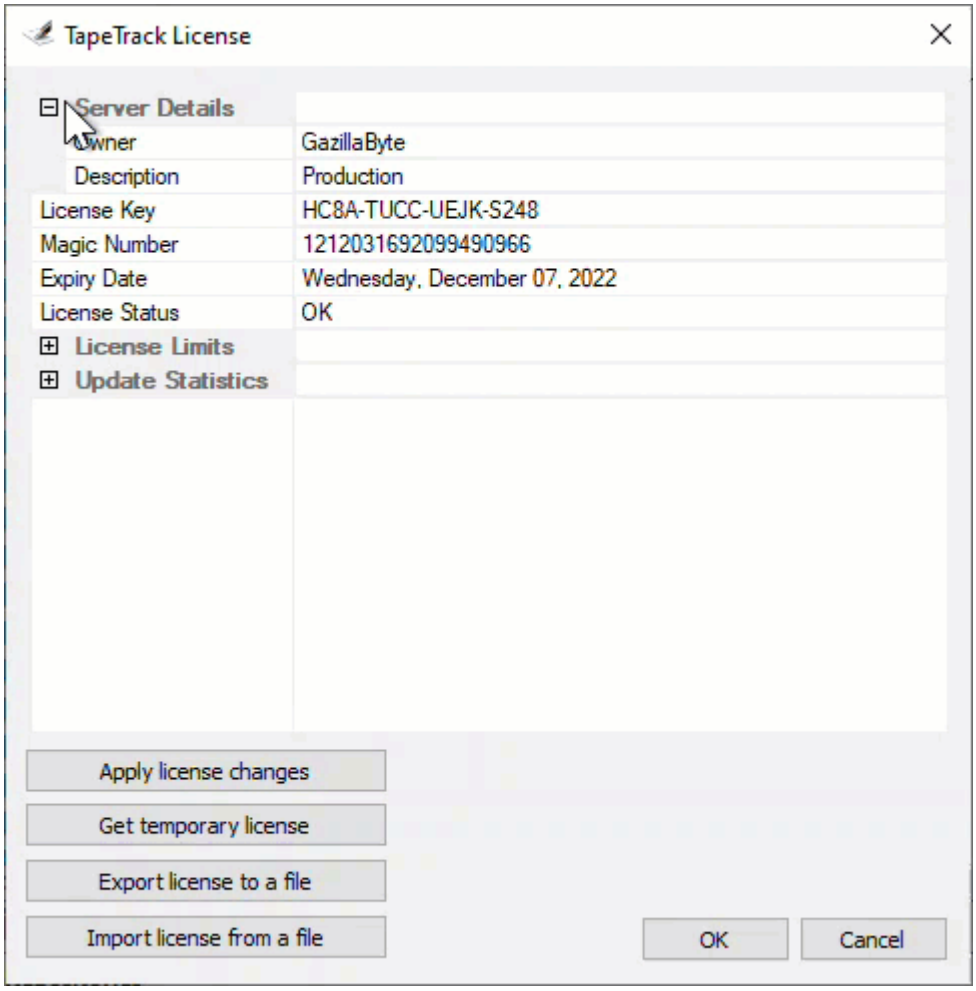

From the menu click `Help` → `Framework Server Licensing` to open the TapeTrack License window.

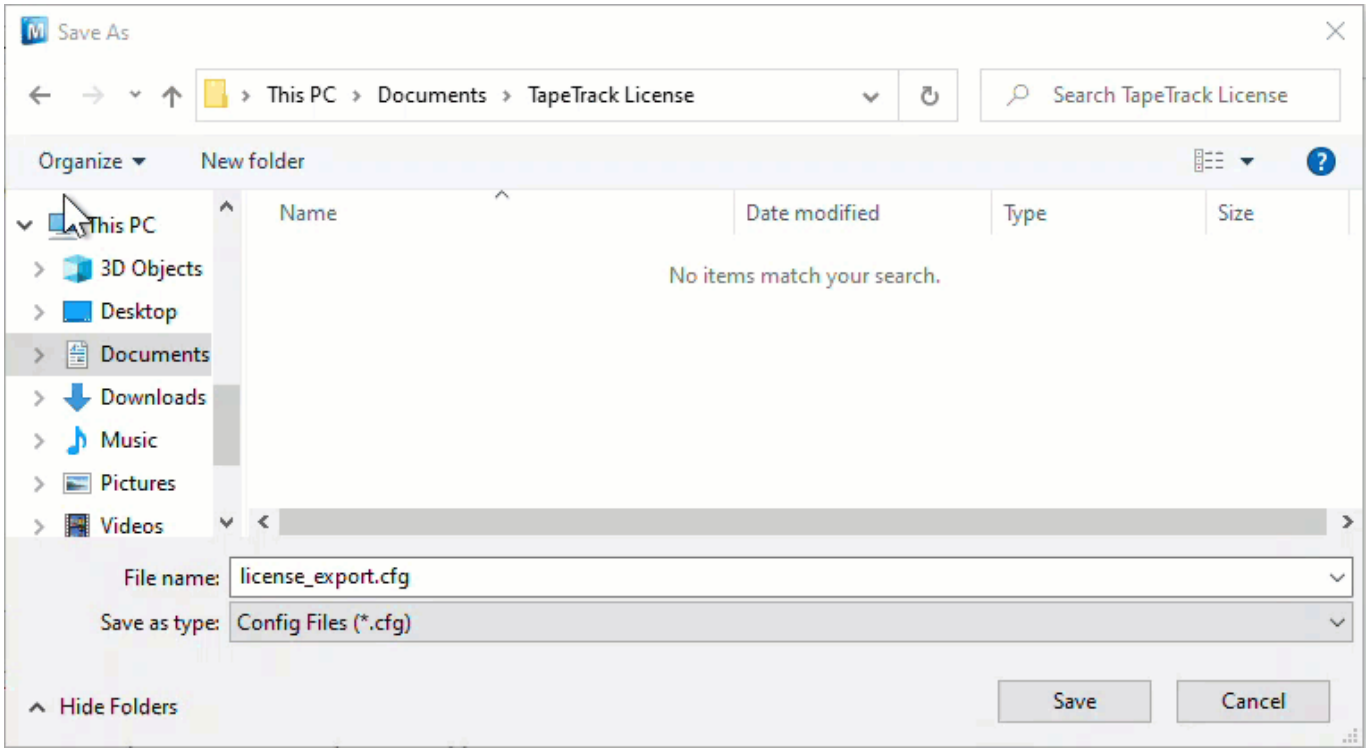

If the menu option **Framework Server Licensing** is greyed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

Click `Export license to a file` to open the Windows file save dialog.

Save the file with a descriptive name (e.g. current_license.cfg) in a suitable location. Ensure that the file saves with a file extension .cfg as some operating systems may default to .txt

technote, license, export-license, tapemaster
