Export User-ID's

Open TapeMaster by logging in with either the tapemaster ID (super user) or a User-ID with tapemaster rights.

From the Main Menu select `Administration` > `Group/User Administration` to open the `User Administration` window.

Select the required User-ID's that you want to export.

Press `Ctrl`+E to open the `Export` window.

Select your output file type preference and Click `OK` to write the data to the exported file.

Set the location to write the file to and file name (if default is not acceptable) and click `Save`.

Close the `User Administration` window by clicking the X at the top right corner.
