

Hiding Media Types

Media Types can be hidden, or removed from view, in TapeMaster, cleaning up the Customer Tree display without needing to delete old or unused Media-ID's and their associated data.

Hiding Media Types is a two part process:

- Setting the required Media's Hide Media Option to True.
- Removing the Hidden Media Type from display via the TapeMaster Preferences.

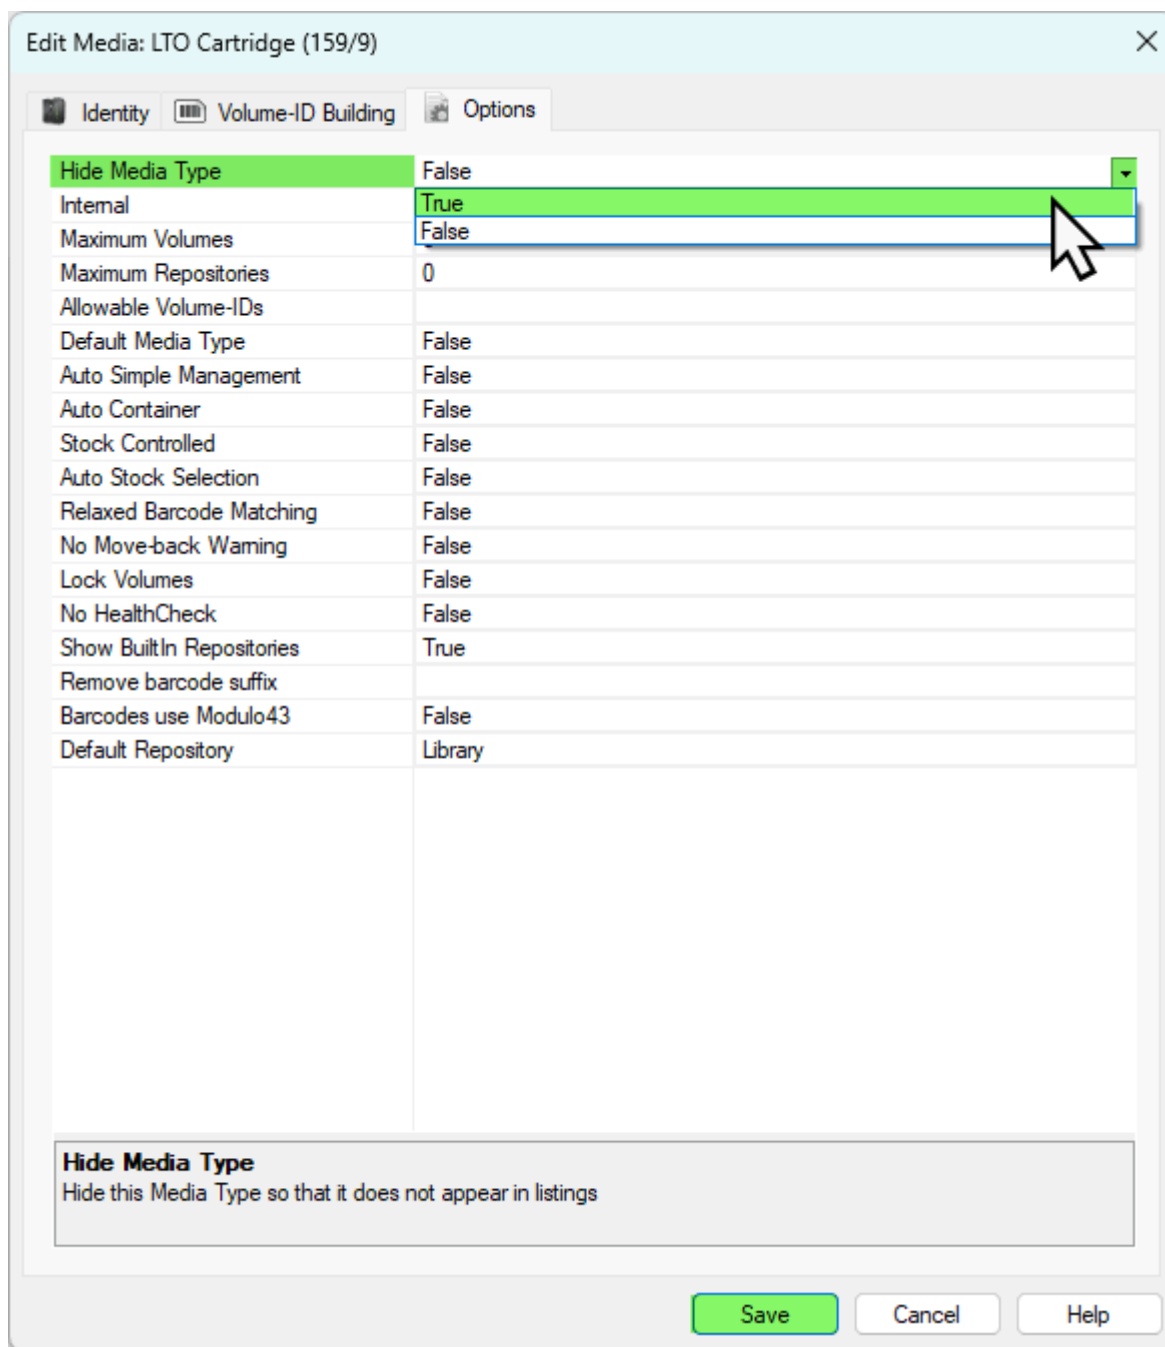

Media Properties Options

To hide a Media Type, expand the Customer in the Customer Tree, right click on the required Media Type and select Properties.

The screenshot shows the TapeTrack TapeMaster™ (GazillaByte) application window. The interface includes a menu bar (File, Administration, Favorites, Tools, View, Help) and a Customer Filter input field. On the left, the Customer Tree is expanded to show 'GazillaByte - Production' with sub-items: 'US00 - United States', 'US01 - New York', 'US02 - Los Angeles', 'CONT - Contain', 'LTO - LTO Cartridge', and 'US03 - North Carolina'. The main pane displays a table of Volumes for the 'Los Angeles Data Center' LTO Cartridge. The table has columns for ID, Current Location, Target Location, Next Move, and Description. Below the table, it shows 'Total Items: 1,582'. At the bottom, there is a 'Repositories' section with icons for 'Gemtrac' and 'Library'. A status bar at the bottom right indicates 'Connection 127.0.0.1 uses AES 256 bit encryption'.

ID	Current Location	Target Location	Next Move	Description
000006L6	Library	Offsite Vault ...	Friday, Nov...	Monthly

Display Or Hide Media Type From Customer Tree

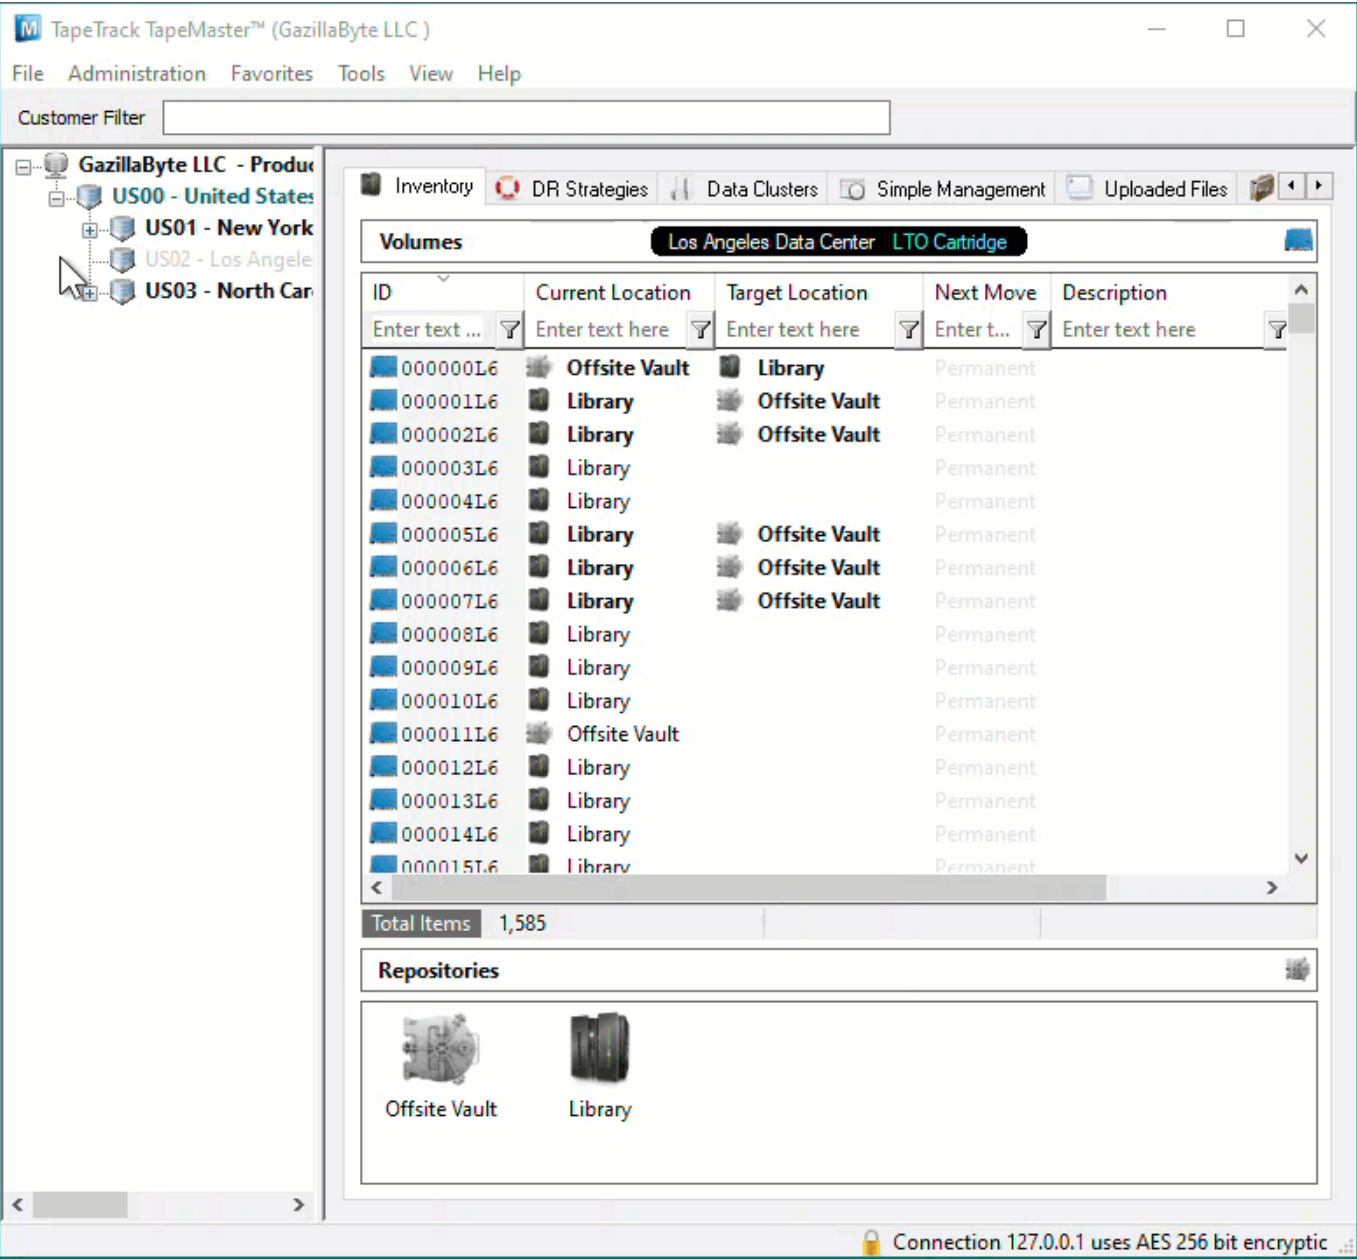

Depending on TapeMaster Preferences, the Hidden Media Type can be set to either be greyed out and inactive (not clickable) or completely removed from display. Having the Hidden Media Type greyed out is the default installation setting, how your display functions will depend on what you have the preferences set.

Hidden Media Type Greyed Out

To have the hidden Media Type displayed in a greyed out format, from the main menu, click File >

Preferences

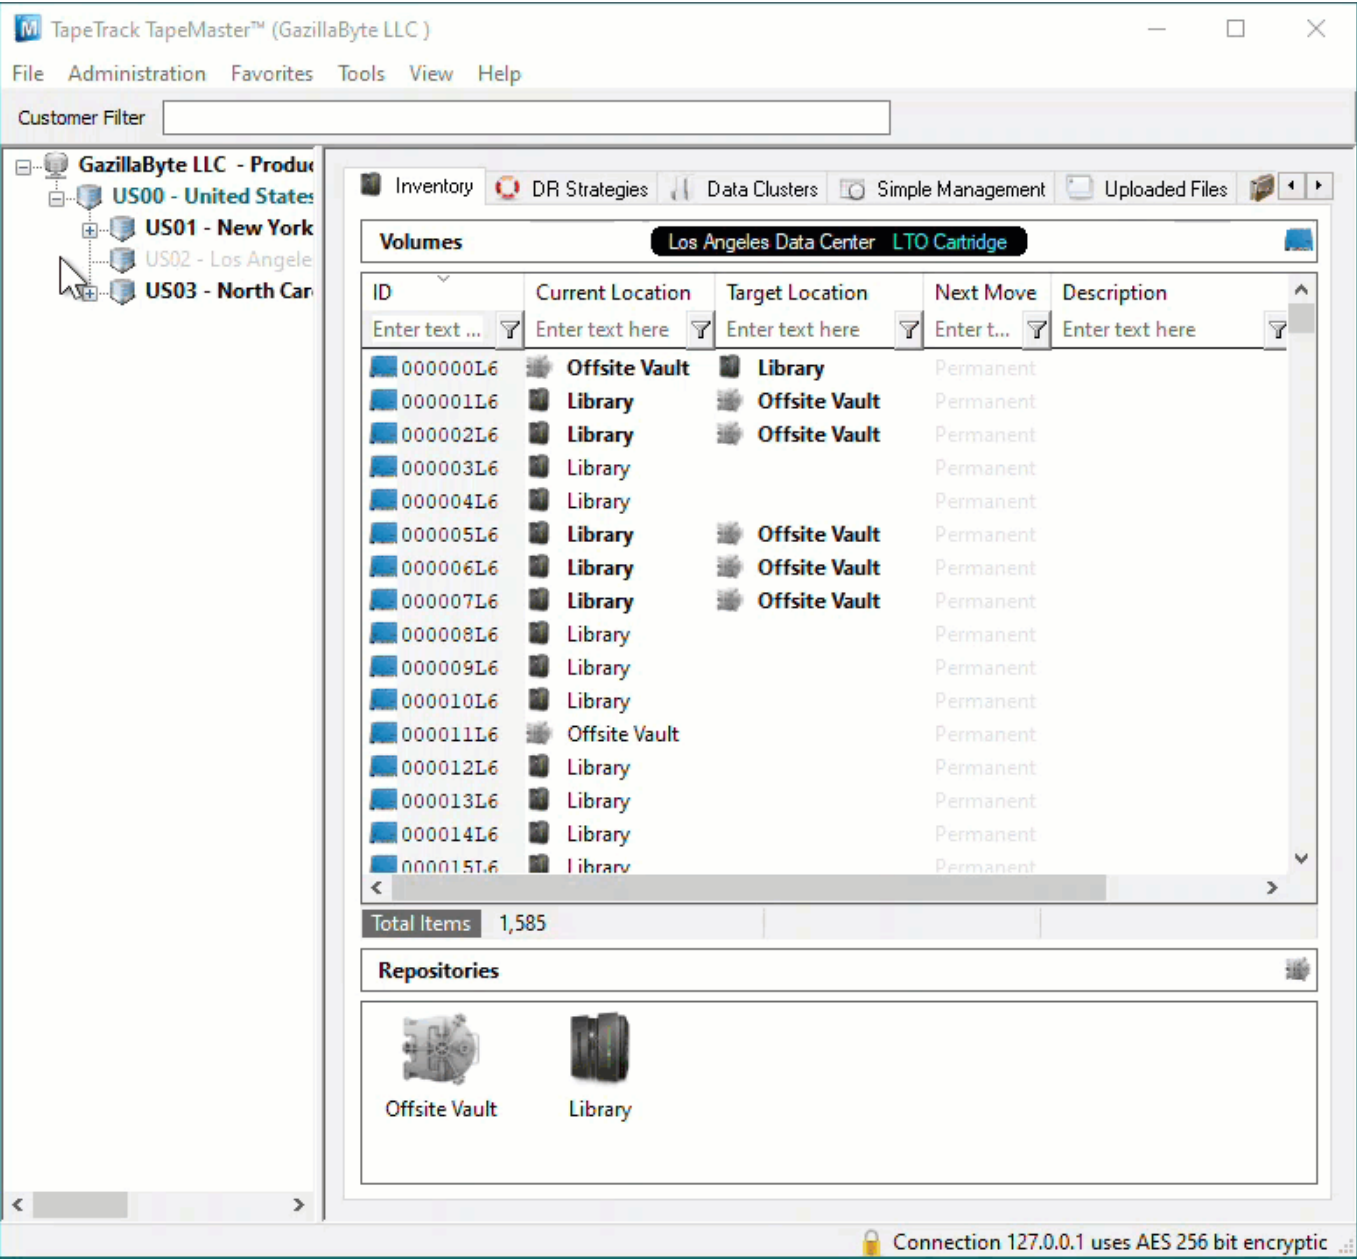

In the options window, set Show Hidden Media to True and click OK to update data.

Hidden Media Type Removed From Display

To have the hidden Media Type removed from display, from the main menu, click File > Preferences

In the options window, set Show Hidden Media to False and click OK to update data.

Unhiding Media Types
