

Importing TapeTrack License

While logged to in TapeMaster as [tapemaster](#), or [user-ID with tapemaster rights](#)

From the menu click Help → Framework Server Licensing

The screenshot shows the TapeTrack TapeMaster™ (GazillaByte) application window. The left sidebar displays a tree view of the organization structure, including 'GazillaByte - Production', 'US00 - United State', 'US01 - New York', 'US02 - Los Angel', 'CONT - Conta', 'LTO - LTO Car', and 'US03 - North Carc'. The main area is titled 'Los Angeles Data Center LTO Cartridge' and contains a table of volumes. Below the table, there is a 'Total Items' count of 263 and a 'Repositories' section showing icons for 'GemTrac', 'Library', and 'Offsite Vault'. The status bar at the bottom indicates 'Connection 127.0.0.1 uses AES 256 bit encryption' and a 'Tape' icon.

ID	Current Location	Target Location	Flags	Next Move	Description
000000L6	GemTrac		Cn	Permanent	
000001L6	Library		Cn	Permanent	
000002L6	Offsite Vault		CnO	Permanent	
000003L6	Offsite Vault		CnNO	Permanent	Friday Backup

000020L6	GemTrac	Library	CMn	Permanent	

If the menu option **Framework Server Licensing** is grayed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

Click [Export license to a file](#) and save the file with a descriptive name (e.g. backup_license.cfg). Exporting your current license allows you to revert to your current license should something not work as expected while importing a new license.

Click Import license to open the Windows Open File dialog.

Select the license config file you received with the new key and click Open to import the file.

Your expiry date should now be updated and License Status should read **OK**.

Server Details	
Owner	GazillaByte
Description	Production
License Key	HC8A-TUCC-UEJK-S248
Magic Number	1212031692099490966
Expiry Date	Wednesday, December 07, 2022
License Status	OK
License Limits	
Update Statistics	

Buttons at the bottom:

- Apply license changes
- Get temporary license
- Export license to a file
- Import license from a file
- OK
- Cancel

On older releases, if your expiry date has updated but the license status still reads NOT-OK, click **Apply license changes** to save updated values.

Click OK to close the License Window.

Older versions may require you to press F5 while in the **customer tree** window to refresh new information.

Troubleshooting

If after installing new license configuration file your **License Status** still reads **Not-OK**, reinstall old configuration (backup-license.cfg) file using above instructions and contact help desk [support](#) for further information.

Alternatively you can click Get temporary license and OK from the Framework Server Licensing window to give you a 12 day expiry date to continue to use TapeTrack until your new key has been issued. Your computer must have internet access for the Get temporary license function to work.

The screenshot shows the 'TapeTrack License' window. It contains a table with the following details:

Server Details	
Owner	GazillaByte LLC
Description	Production
License Key	UH7G-DMKA-2K3S-9S43
Magic Number	10381360406993687953
Expiry Date	Sunday, October 15, 2017
License Status	OK

Below the table are three expandable sections: 'License Limits' and 'Update Statistics'. At the bottom, there are four buttons: 'Apply license changes', 'Get temporary license' (highlighted with a blue border and a mouse cursor), 'Export license to a file', and 'Import license from a file'. To the right of these buttons are 'OK' and 'Cancel' buttons.
