# Reports - Inventory

There are several ways to export the current status of Inventory from TapeTrack using:

- TapeMaster
- Lite
- Command Line programs

Which method suits your requirement depends on the information required in the report, as well as frequency the reports are required.

TapeTrack TapeMaster and TapeTrack Lite allow dynamic creation of Inventory reports that have variable output or on demand requirements.

Inventory reports that are required on a regular basis can be created using TMSS10Inventory that can then be saved to file, emailed and/or uploaded to the TapeTrack Server allowing clients to download (TapeMaster, TapeTrack Lite or TMSS10DownloadFile) without the need to create the reports themselves.

## Desktop Programs Inventory Reports

### TapeMaster Inventory Reports

TapeTrack TapeMaster allows you to export to report one Customer's Media Type at a time via the Inventory window or all Customers and Media Types using the Volume Global View function.

Using the Volume Global View function has an added advantage of being able to dynamically filter the data using Customer-ID, Media-ID, Volume-ID, Location, Flags, Move Dates, last User interaction and last Program Interaction before exporting results to a report.

### Examples

#### TapeMaster Inventory Window Report

To export report from the TapeMaster Inventory window, select the required Volumes, press Ctrl+E, or right-click and select `Export`. Select the required report format from the popup window and click OK.

```
            System: TapeTrack
 Report Description: Volume List
       Report Notes: Nashville Data Center / LTO Cartridge
    Production Time: Thursday, March 14, 2019 - 09:45:40 (AUS Eastern
Daylight Time)
       Report Width: 119 bytes

ID         Current Location Target Location Flags   Move Time    Due in
```

```

```

### TapeMaster Volume Global View Report

To export reports from the Volume Global View, from the Main Menu select `Tools` → `Volume Global View`. From the popup, if required, enter any filters (including extended Attribute) to narrow down the displayed results and click OK.

Select the required Volumes and press Ctrl+E, or right-click and select `Export`. Select the required report format (Text, HTML, PDF (Portrait or Landscape) or CSV) from the popup window and click OK.

```
            System: TapeTrack

### Lite Inventory Reports

TapeTrack Lite's Volume Management function displays Volumes from the selected Customer's Media type.

Required Volumes can be selected by range clicking (Shift+Click and Ctrl+Click) or select all Volumes by right-clicking and `Select` → `All`.

Once the Volumes are selected, right-click and select `Export` (or Ctrl+E) to export Inventory to chosen file format.

```
            System: TapeTrack
 Report Description: Export

000003L5   Scratch Volumes                   Permanent
--------- ------------ -------------------- ---------
```

## Command Line Inventory Reports

TMSS10Inventory produces an Inventory Report of all selected Volumes.

The Inventory report can be output in two modes:

- Mode 1 (default) will produce a report with the values: Sequence, Barcode, Location, Repository, Next Move, Days, Last Move, GDup (Global Duplicate), CDup (Customer Duplicate) and

Container.
- Mode 2 will produce a report with the values: Sequence, Customer, Media, Total and Moving total.

Reports can be output in the file formats text, HTML, JSON, PDF (Portrait or Landscape) and CSV.

# Examples

## TMSS10Inventory Mode 1

### Command Line Input - Text File

```
TMSS10Inventory -S user:-password@server > report.txt
```

### Text File Output

```
             System: TapeTrack
 Report Description: Inventory List
       Report Notes: Customer(Nashville Data Center) Media Type(LTO
Cartridge)
    Production Time: Wednesday, February 06, 2019 - 11:38:28 (AUS Eastern
Daylight Time)
       Report Width: 195 bytes

 Seq.   Barcode              Location                        Repository
