

Technote Reports - Repositories

There are several ways to export the current status of Inventory from TapeTrack using:

- TapeMaster
- Lite
- Command Line programs

Which method suits your requirement depends on the information required in the report, as well as frequency the reports are required.

TapeMaster and Lite allows dynamic creation of Repository reports that have variable output or on demand requirements.

Repository reports that are required on a regular basis can be created using [TMSS10ListRepositories](#) that can then be saved to file, emailed and/or uploaded to the TapeTrack Server allowing clients to download (TapeMaster, Lite or [TMSS10DownloadFile](#)) without the need to create the reports themselves.

Desktop Programs Repository Reports

TapeMaster Repository Reports

TapeMaster allows you to export to report one Customer's Media type at a time via the Inventory window or all Customers and Media types using the [Volume Global View](#) function.

Using the [Volume Global View](#) function has an added advantage of being able to dynamically filter the data using Customer-ID, Media-ID, Volume-ID, Location, Flags, Move Dates, last User interaction and last Program Interaction before exporting results to a report.

TapeMaster Inventory Window Repository Report

To export report from the TapeMaster Inventory window, filter the displayed [Volumes](#) by filtering the Current and/or Target Repository, Select the required volumes, right click highlighted volumes and press Ctrl+E, or right click and select Export. Select the required report format from the popup window and click OK.

System: TapeTrack

Report Description: Volume List

Report Notes: Nashville Data Center / LT0 Cartridge

Production Time: Thursday, March 14, 2019 - 10:41:22 (AUS Eastern Daylight Time)

Report Width: 107 bytes

ID	Current Location	Target Location	Flags	Move Time	Due in Container	Next Move	Description	-----
000004	L5	Library	CnN	Unspecified				
Unassigned	Permanent	Friday Backup	000005	L5	Library	CnN	Unspecified	
Unassigned	Permanent	Friday Backup	000005	L6	Library	CEhnN	Unspecified	
Unassigned	Permanent	Monthly January	000006	L6	Library	CEhnN	Unspecified	
Unassigned	Permanent	Weekly	000009	L5	Library	CEnNt		
Unspecified	Unassigned	Permanent	Friday Backup	-----				
</sxh>								

TapeMaster Volume Global View Repository Report

To export reports from the Volume Global View, from the main menu select Tools → Volume Global View. From the popup, if required, enter any filters (including extended Attribute) to narrow down the displayed results and click OK.

Filter the displayed Volumes using the Current and/or Target Repository columns.

Select the required Volumes and press Ctrl+E, or right click and select Export. Select the required report format from the popup window and click OK. <sxh>
