Repository Reports

There are several ways to export the current status of Inventory based on Repository data from TapeTrack using:

- TapeTrack TapeMaster
- TapeTrack Lite
- Command Line Utilities

Which method suits your requirement depends on the information required in the report, as well as frequency the reports are required.

TapeMaster and Lite allows dynamic creation of Repository reports that have variable output or on demand requirements.

Repository reports that are required on a regular basis can be created using TMSS10ListRepositories that can then be saved to file, emailed and/or uploaded to the TapeTrack Server allowing clients to download (TapeMaster, Lite or TMSS10DownloadFile) without the need to create the reports themselves.

Desktop Programs Repository Reports

TapeMaster Repository Reports

TapeMaster allows you to export to report one Customers Media Type at a time via the Inventory window or all Customers and Media Types using the Volume Global View function.

Using the Volume Global View function has an added advantage of being able to dynamically filter the data using Customer-ID, Media-ID, Volume-ID, Location, Flags, Move Dates, Last User Interaction and last Program Interaction before exporting results to a report.

Examples

TapeMaster Repository Report

To export report from the TapeMaster Inventory window, filter the displayed Volumes by filtering the Current and/or Target Repository, Select the required volumes, right-click highlighted volumes and press Ctrl+E, or right-click and select `Export`. Select the required report format (Text, HTML, PDF (Portrait or Landscape) or CSV) from the popup window and click OK.

```
            System: TapeTrack
 Report Description: Volume List
       Report Notes: Los Angeles Data Center - LTO Cartridge
    Production Time: Monday, October 04, 2021 - 12:11:40 (AUS Eastern
Daylight Time)
```

```
       Report Width: 110 bytes

ID       Current Location Target Location Flags Move Time    Due in
Container  Next Move Description

------- --------- ---------------
```

TapeMaster Volume Global View Repository Report

To export reports from the Volume Global View, from the TapeMaster Main Menu select `Tools` → `Volume Global View`. From the popup, if required, enter any filters (including extended Attribute) to narrow down the displayed results and click OK.

Filter the displayed Volumes using the Current and/or Target Repository columns.

Select the required Volumes and press Ctrl+E, or right-click and select `Export`. Select the required report format (Text, HTML, PDF (Portrait or Landscape) or CSV) from the popup window and click OK.

```
            System: TapeTrack

Command Line Repository Reports

TMSS10ListRepositories creates a report listing the current status of each Repository including capacity, usage, incoming Volumes, outgoing Volumes and assigned Slots.

Batch File Or Command Line Input TMSS10ListRepositories

```
TMSS10ListRepositories -S user:-password@server > report.txt
```

Text File Output

```
             System: TapeTrack
 Report Description: Repository Listing
    Production Time: Monday, October 04, 2021 - 12:28:25 (AUS Eastern
Daylight Time)
       Report Width: 124 bytes

 ID   Description          ID   Description          ID   Description

 ---- -------------------- ---- -------------------- ---- ------------------
-- -------- -------- -------- -------- --------
                                                         Totals
0      244        5        5        0
 ---- -------------------- ---- -------------------- ---- ------------------
```

```
-- -------- -------- -------- -------- --------
```

To limit the report to one Customer-ID, Media-ID, Repository-ID or a combination of these values use the Volume filter (-V).

Only show results from Customer-ID US04

```
TMSS10ListRepositories -S user:-password@server -V "US04.*.*" > report.txt
```

Only show results for Repository OFFS.

```
TMSS10ListRepositories -S user:-password@server -V "*.*.*@OFFS" > report.txt
```

Only show results from Customer-ID US04, Media-ID LTO and Repository OFFS

```
TMSS10ListRepositories -S user:-password@server -V "US04.LTO.*@OFFS" >
report.txt
```

TMSS10MoveList creates a report listing Volumes that are currently moving into or out of displayed Repositories and a total of moving Volumes for each Repository.

Batch File Or Command Line Input TMSS10MoveList

```
TMSS10MoveList -S user:-password@server > report.txt
```

Text File Output

```
             System: TapeTrack
 Report Description: Moving Volumes List
       Report Notes: Customer(Nashville Data Center) Media Type(LTO
Cartridge)
    Production Time: Thursday, March 14, 2019 - 11:22:23 (AUS Eastern
Daylight Time)
       Report Width: 190 bytes
