

Technote Reports - List Storage History Examples

Command Line Storage History Reports

TMSS10ListStorageHistory produces lists the storage history movements of Volumes for each Repository within a set date range.

Statistics included in the report include each Repository's:

- Repository levels including low, high and average number of Volumes.
- Number of Volumes moving into and out of the Repository
- Location of where the Volumes moved from or to.

Examples

Command Line Input - Text File
