

List Storage History Reports

Command Line Storage History Reports

`TMSS10ListStorageHistory` produces lists the storage history movements of `Volumes` for each `Repository` within a set date range.

Statistics included in the report include each `Repository`'s:

- `Repository` levels including low, high and average number of `Volumes`.
- Number of `Volumes` moving into and out of the `Repository`.
- Location of where the `Volumes` moved from or to.

Examples

Command Line Input - Text File

```
TMSS10ListStorageHistory -S user:-password@server -R *:* > report.txt
```

Text File Output

System: TapeTrack
