Technote Reports - Zones

There are several ways to export the current status of Inventory from TapeTrack using:

- TapeMaster
- Command Line programs

Which method suits your requirement depends on the information required in the report, as well as frequency the reports are required.

TapeMaster allows dynamic creation of Zone reports that have on demand requirements.

Zone reports that are required on a regular basis can be created using TMSS10ZoneList that can then be saved to file, emailed and/or uploaded to the TapeTrack Server.
