PDF Report Options

Report Title Bar Color

The variable TMSSPDFCOLOR sets the report header to a custom color, determined by RGB Hexvalues (do not include the #).

Default

Red FF0000

Green 00FF00

Blue 0000FF

Report Title Heading

The variable TMSS10REPORTITLE sets the report header title to a custom value.

Default heading varies according to what report you execute. As an example TMSS10Inventory has a default heading of `Inventory` and a report-ID of 100.

Setting TMSS10REPORTITLE100 to `Customer 0001`

Setting TMSS10REPORTITLE100 to `Customer 0001 Full Inventory`

Report Logo

Company logo can be added to reports using TMSSPDFLOGOPATH.

GazillaByte Logo, dimensions , format JPEG.

Report Format

PDF reports can be created in either portrait or landscape format using TMSSPDFORIENTATION. Using landscape allows the inclusion of extra columns without crowding the output.

Portrait

Landscape
