Upgrading TapeMaster

Upgrading TapeMaster is a simple process that maintains your server connection and user details during the uninstallation of your current version and installation of the new release.

These instructions are for upgrading TapeMaster only, such as a stand alone install that accesses a Framework Server on a remote connection.

Download Installer

Before uninstalling the current version of TapeMaster you have installed, download the latest release of TapeMaster to ensure you have internet access and the ability to download the executable.

Download the TapeMaster executable:

- TapeMaster 64 Bit
- TapeMaster 32 Bit

Remove Current Installation

Ensure you have the system permissions required to install the new executable before uninstalling TapeMaster.

The following instructions are the suggested method for Windows 10 via the Start Menu.

- Open the `Start menu`.
- Scroll down the Programs and expand the TapeTrack folder.
- Scroll down and click on the `TapeTrack TapeMaster Uninstall` entry.
- Click `Yes` to the Windows Installer popup to confirm the uninstall process.

The following instructions are the suggested method for Windows 10 via the Settings Menu

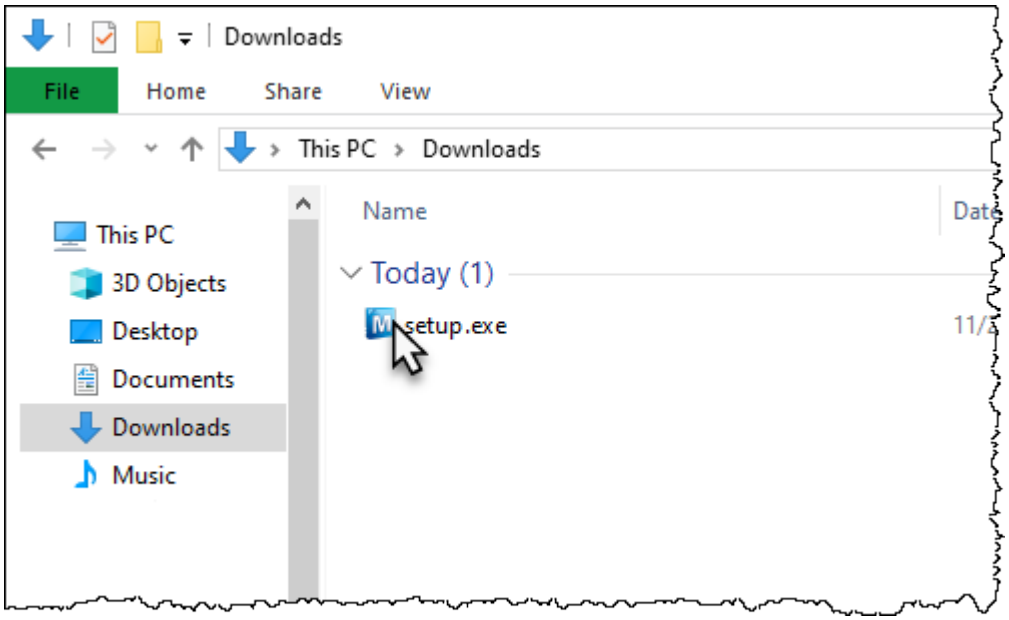

- Open the `Start menu`.
- Click `Settings (Gear icon)`.
- Click `Apps` on the Settings menu.
- Select `Apps & Features` from the left pane to display a list of all installed apps.
- Scroll down and select `TapeTrack TapeMaster` from the list by left clicking.
- Click the `Uninstall` button that appears.
- Click the `Uninstall` pop-up button to confirm.

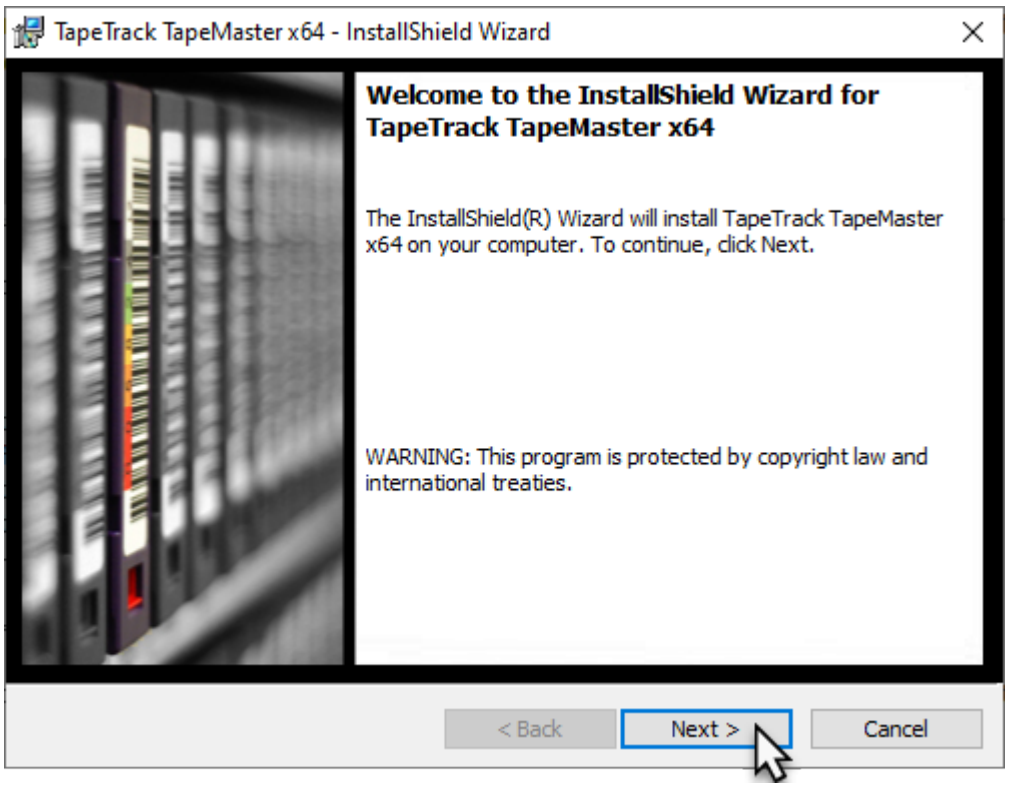

If you are running another operating system, please follow the instructions for that system to uninstall the current version of TapeMaster.

Install New Release

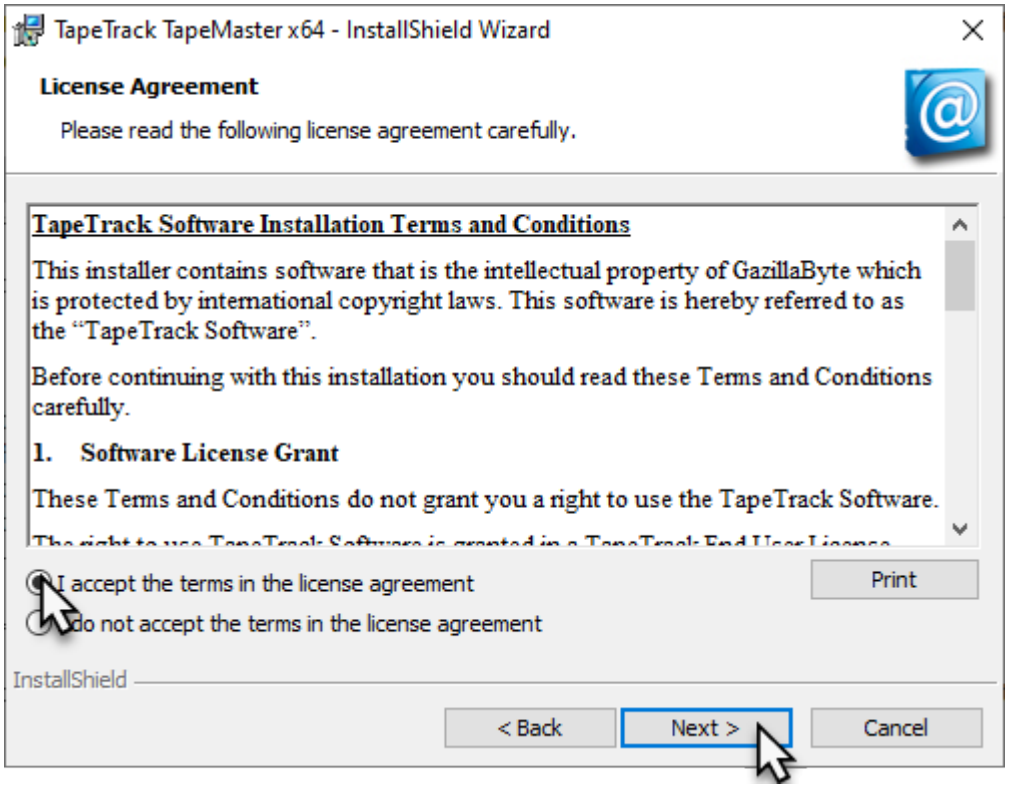

Locate the executable you downloaded, setup.exe, and double click to initiate the installation.

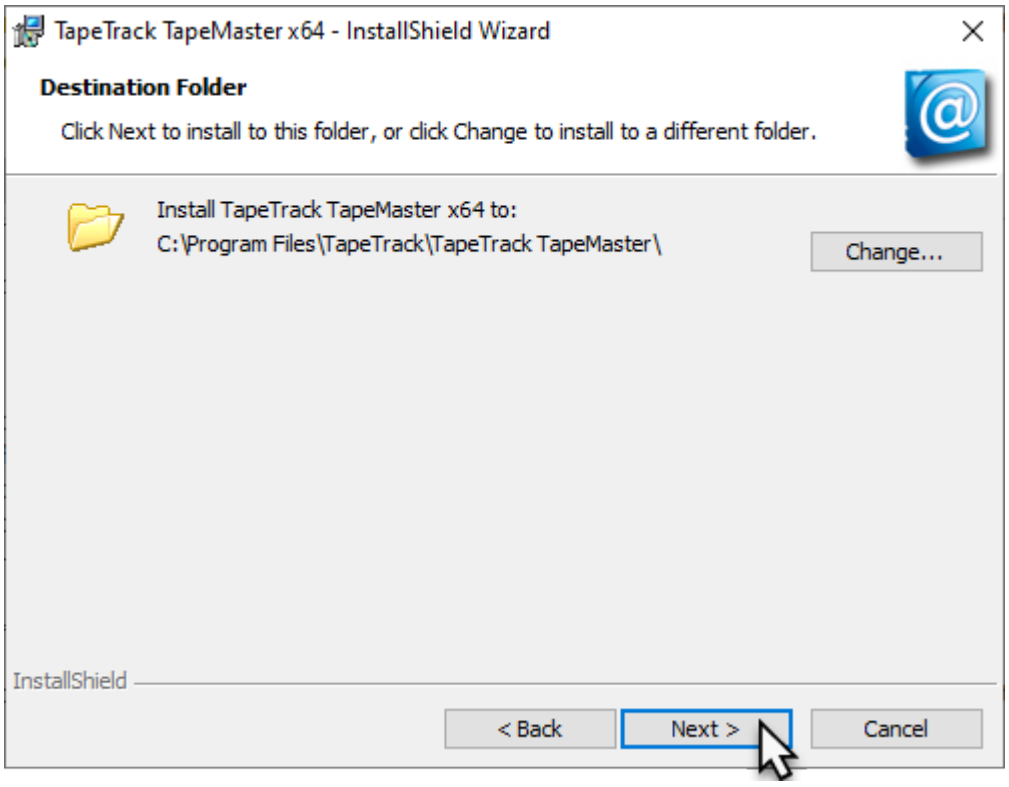

Click `Next >` to start the Install Shield Wizard.

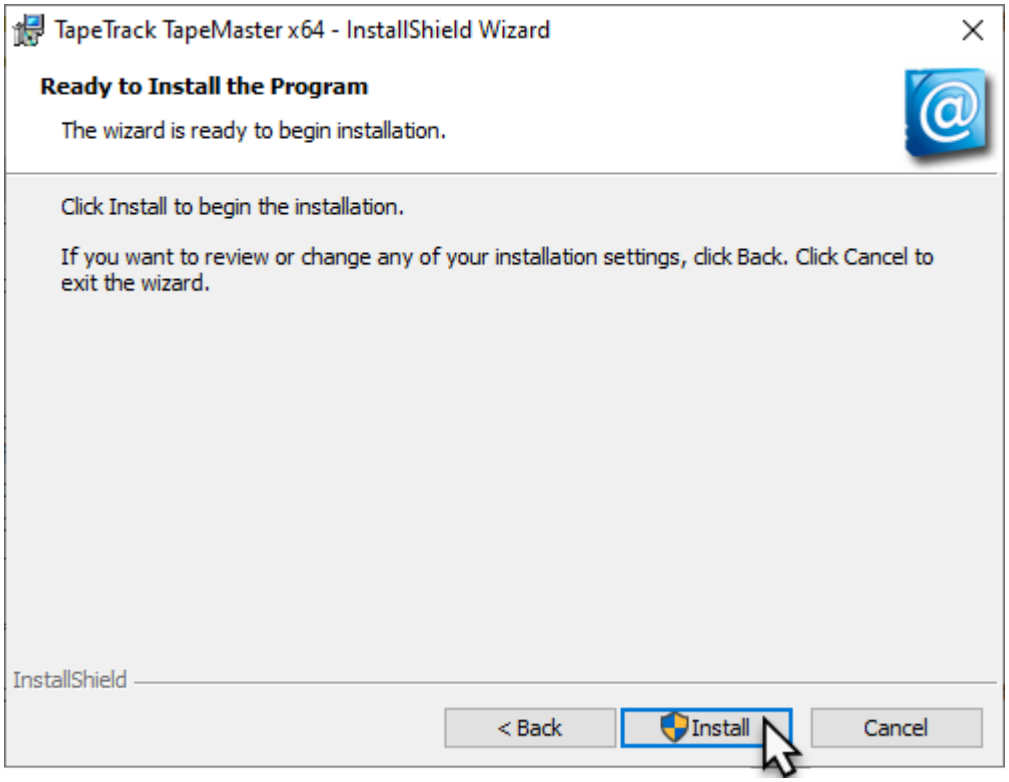

After reading and agreeing to the License Agreement click `I accept the terms in the license agreement` and `Next >` to proceed

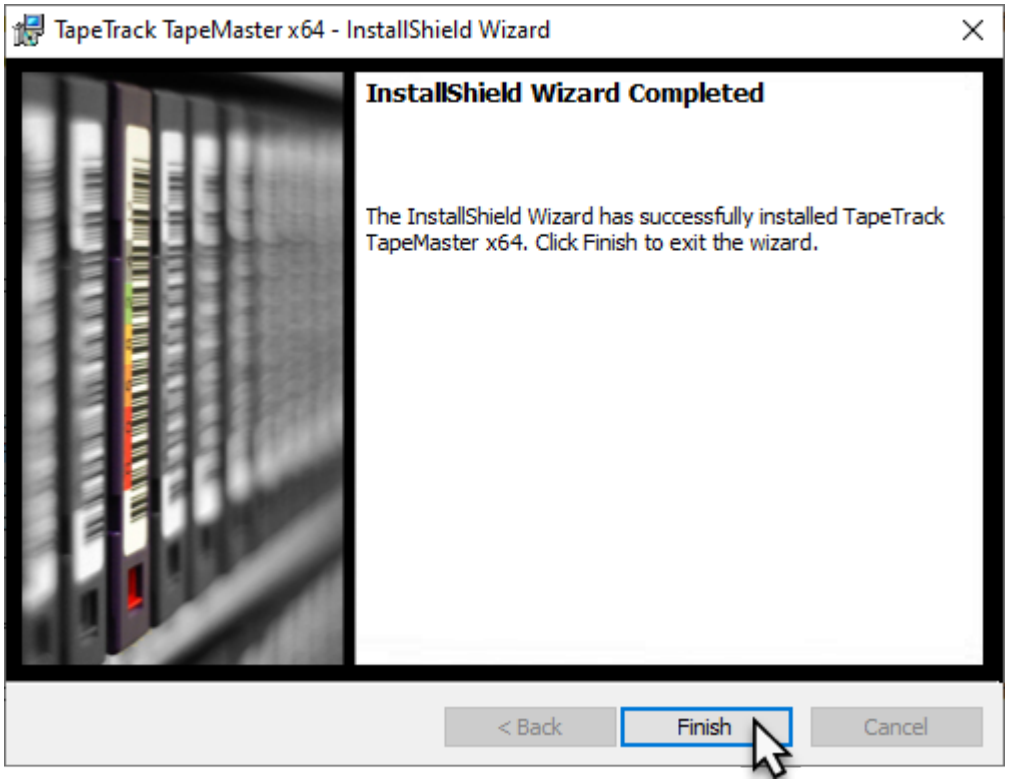

Confirm the installation directory is correct,
or click Change to select another installation directory. Click `Next >` to proceed.

Click `Install` to begin the installation

Click `Finish` to exit the installer.

upgrade
