TapeTrack Version Information

To determine what version of TapeTrack Software you have installed follow the below instructions for each software component:

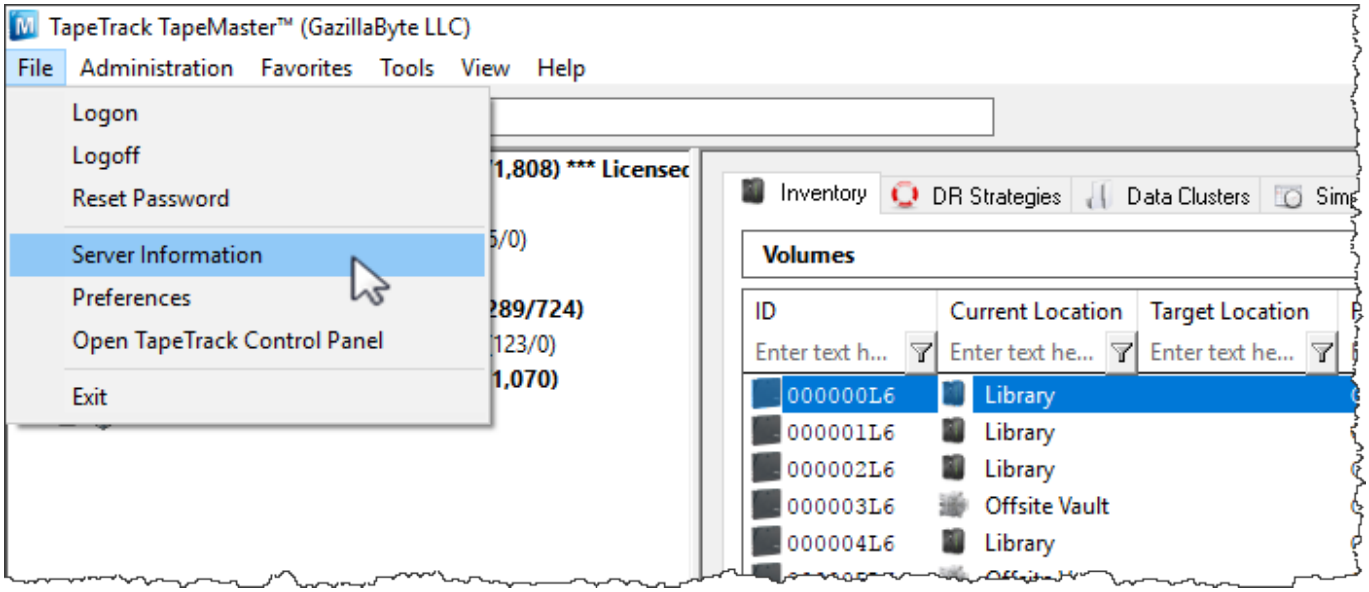

- TapeTrack Framework Server
- TapeTrack TapeMaster
- TapeTrack Lite
- TapeTrack Checkpoint
- TapeTrack Server Utilities
- TapeTrack TMSS10Sync
- TapeTrack SecureSync
- TapeTrack Offline Scanner

Framework Server Version Information

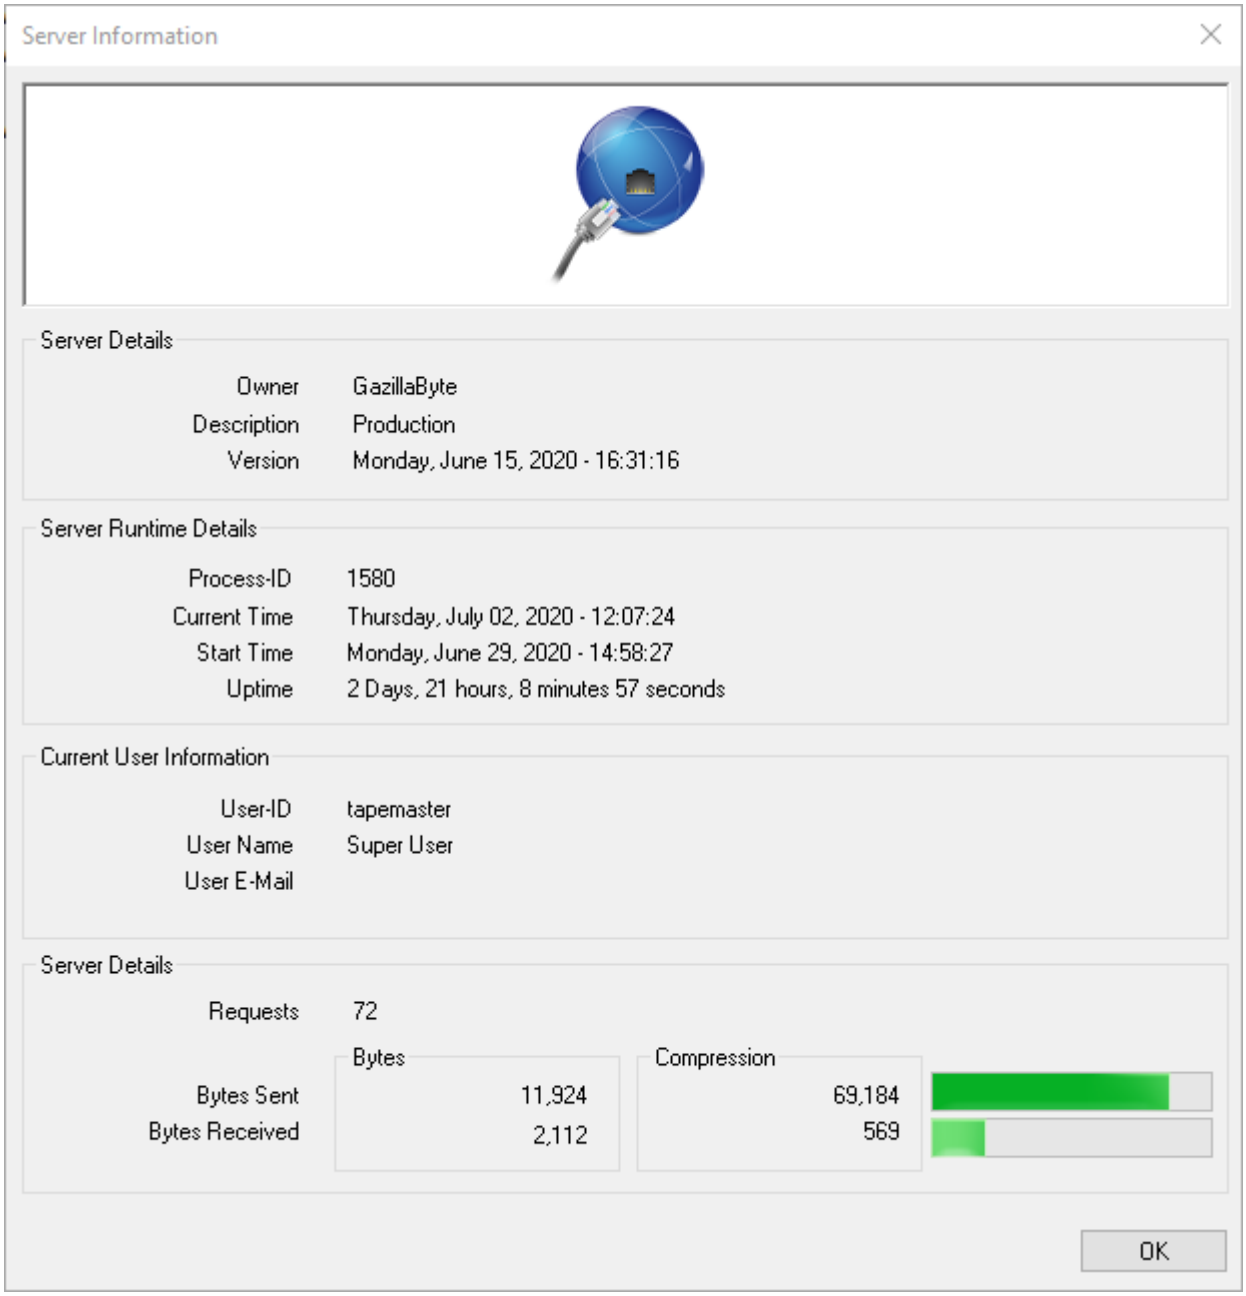

Framework Server Version Information Via TapeMaster

Checking version information via the TapeMaster main menu:

- Login to TapeMaster
- Select `File` > `Server Information`

The version information is displayed under the field `Server Details`, `Version` in the form of a date.

Click OK or X to close the window.

Framework Server Version Information Via Command Prompt

Checking version information via a Command Line Prompt.

- Open a Command Prompt on the Server where TapeTrack Framework Server is installed.
- Enter the command `TMSS10Server -V`

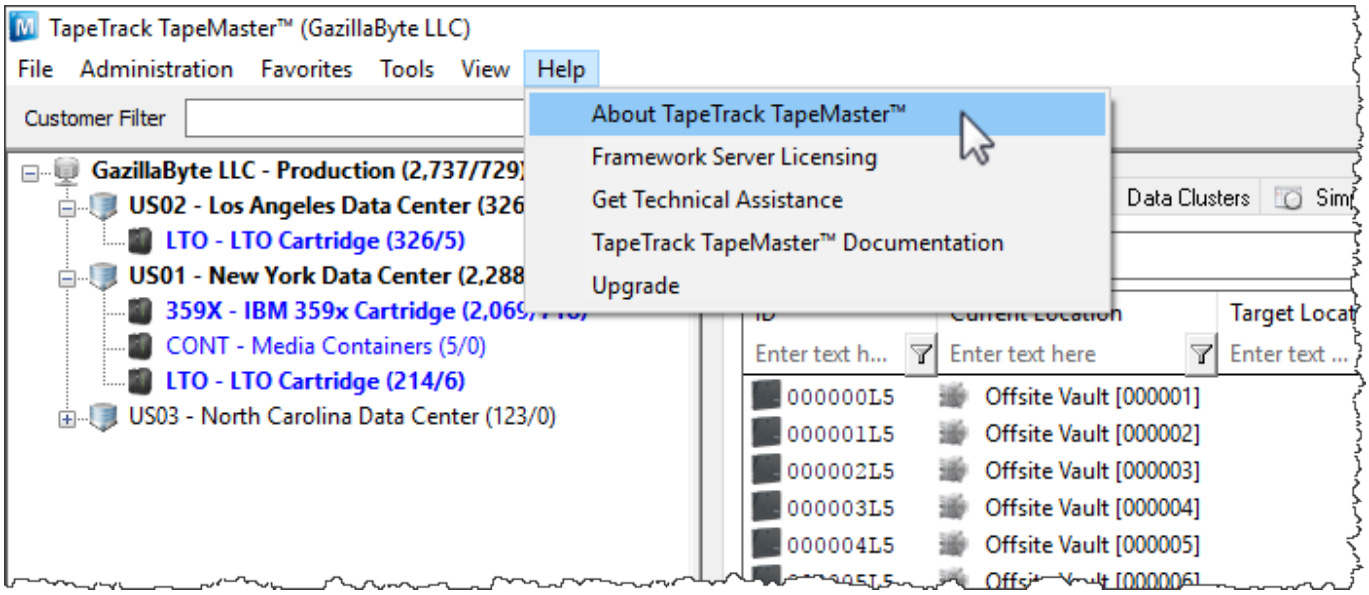

The version information is displayed with a compile date and time.

```
C:\Users\gazillabyte>tmss10server -V
TapeTrack FrameWork Server. Compiled Jun 15 2020 @ 16:31:16
```

TapeMaster Version Information

Checking version information via the Menu:

- Login to TapeMaster
- Select `Help` > `About TapeTrack TapeMaster` from the main menu

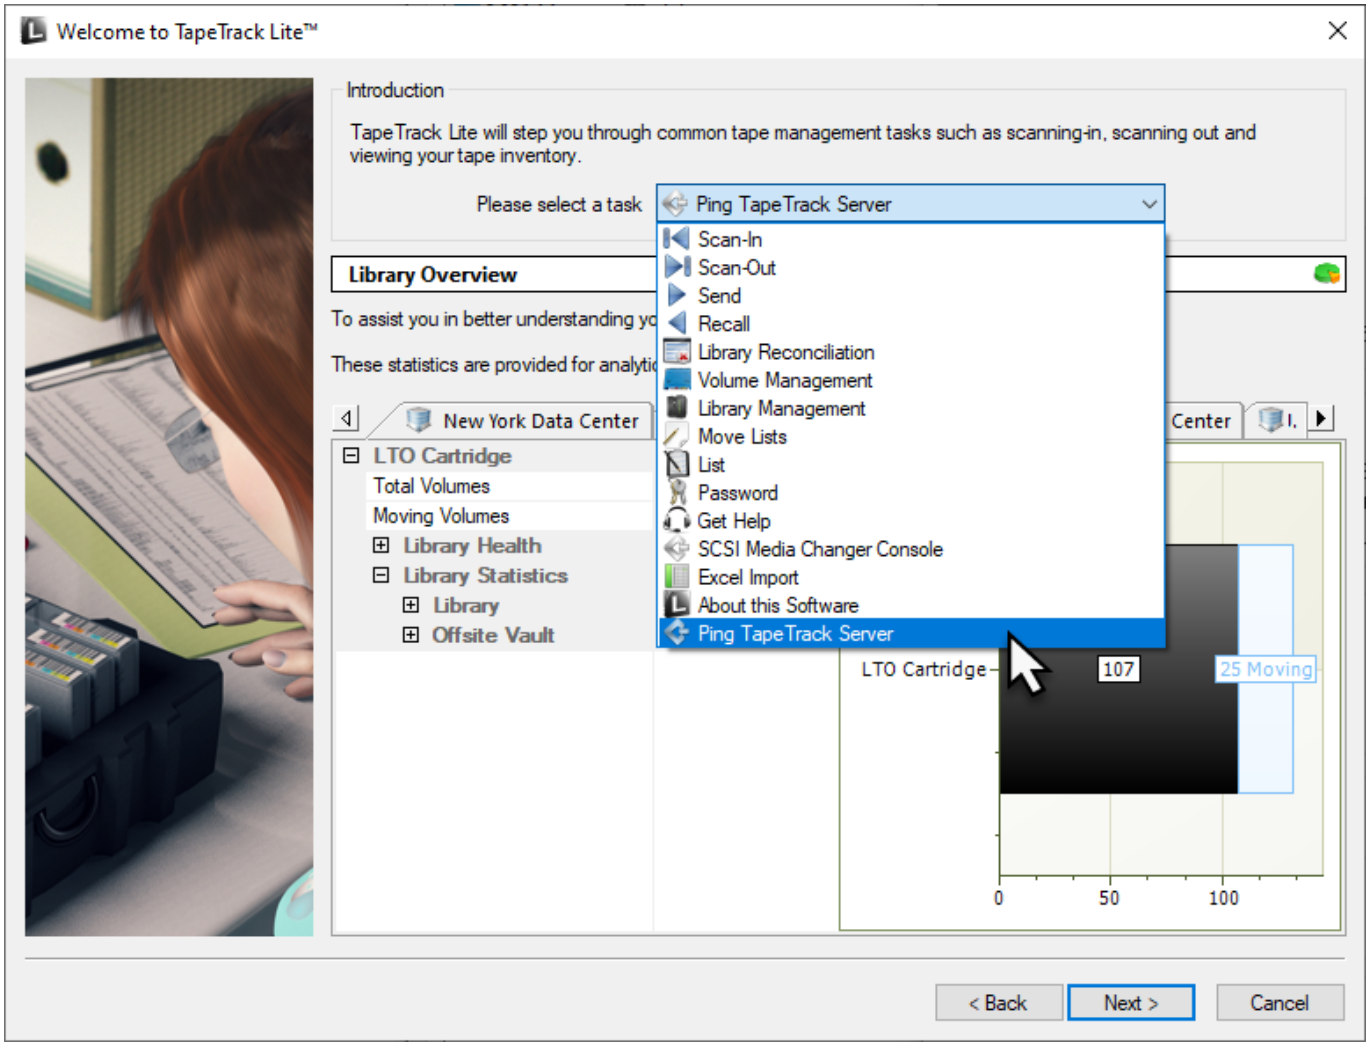

The version information is displayed under the field `Compiled` in the form of a date.

Click OK or X to close the window.

Lite Version Information

Log into Lite and from the drop down menu select `About This Software`

The version information is displayed under the field Compiled in the form of a date.

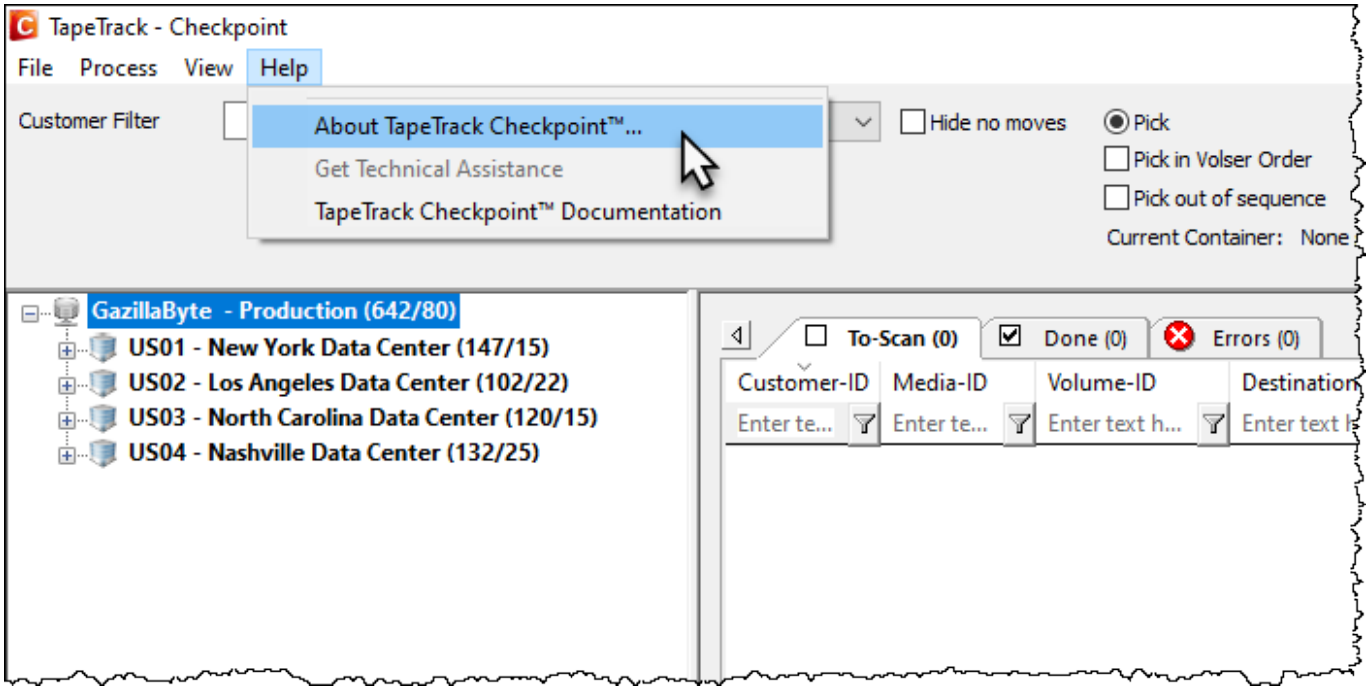

Click OK or X to close the window.

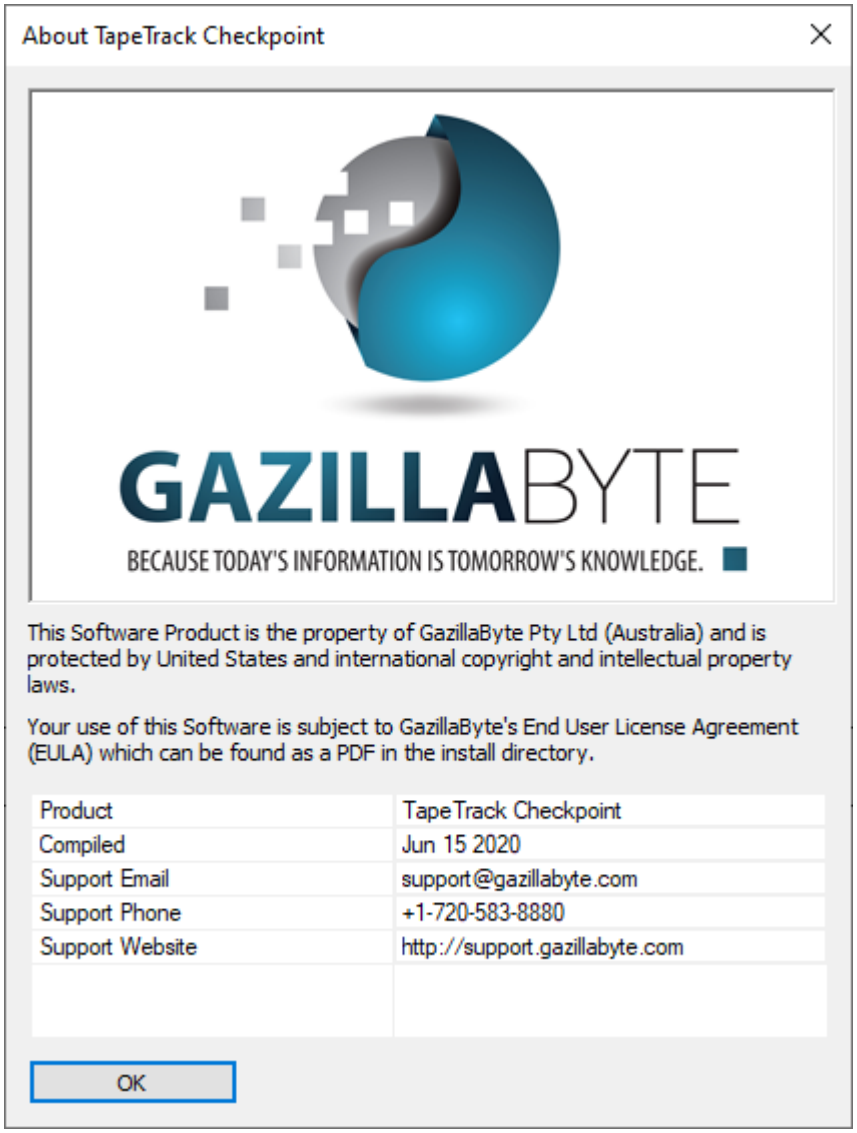

Checkpoint Version Information

Checking version information via the Menu:

- Login to TapeMaster
- Select `Help` > `About TapeTrack Checkpoint` from the main menu.

The version information is displayed under the field `Compiled` in the form of a date.

Click OK or X to close the window.

Server Utilities Version Information

Checking version information via a Command Line Prompt.

As the Server Utilities are a group of individual executables, the compile dates need to be accessed individually.

Open a Command Prompt on the Server where TapeTrack Server Utilities are installed. Enter the command for the utility you want the information for, eg `TMSS10Inventory` with no other attributes.

The version information is displayed with a compile date and time.

```
C:\Program Files\TapeTrack\TapeTrack Server
Utilities\bin\tapetrack>TMSS10Inventory
ZBT001N-13:43:17 TMSS10Inventory (c) GazillaByte 1998-2020
ZBT002N-13:43:17 Compiled Jun 15 2020 at 15:43:08
...
```

TMSS10Sync Version Information

Checking version information via a Command Line Prompt.

Open a Command Prompt on the Server where TapeTrack Sync is installed. Enter the command `TMSS10Sync` with no other attributes.

The version information is displayed with a compile date and time.

```
C:\Program Files\TapeTrack\TapeTrack Server
Utilities\bin\tapetrack>TMSS10Sync
ZBT001N-13:32:30 TMSS10Sync (c) GazillaByte 1998-2020
ZBT002N-13:32:30 Compiled Jun 15 2020 at 15:44:50
...
```

SecureSync Version Information

Checking version information via a Command Line Prompt.

As SecureSync is a group of individual executables, the compile dates need to be accessed individually.

Open a Command Prompt on the Server where TapeTrack SecureSync is installed. For TMSS10IRM_Sync as an example, enter the command `TMSS10IRM_Sync` with no other attributes.

The version information is displayed with a compile date and time.

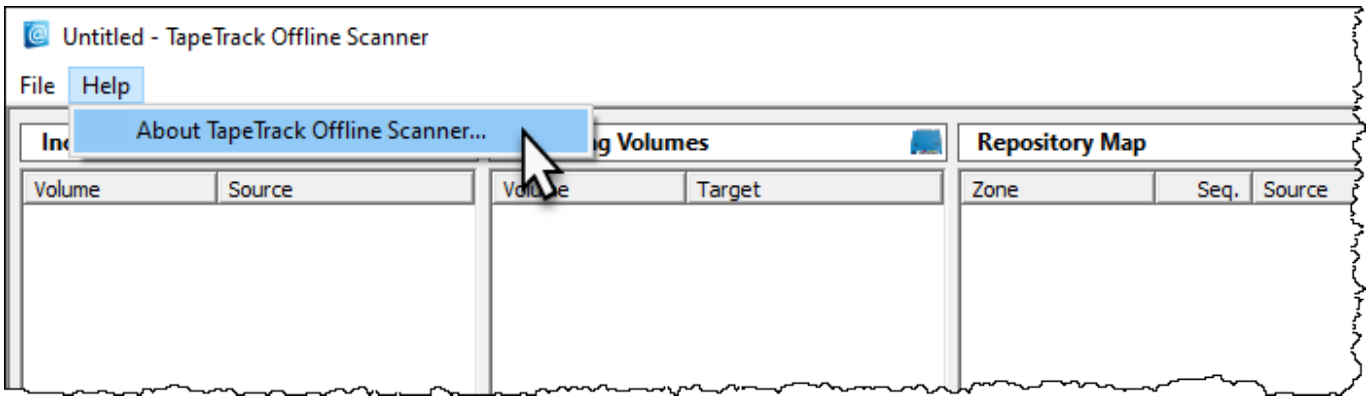

```
C:\Program Files\TapeTrack\TapeTrack SecureSync\bin>TMSS10IRM_Sync
ZBT001N-13:46:20 TMSS10IRM_Sync (c) GazillaByte 1998-2019
```

```
ZBT002N-13:46:20 Compiled Apr 20 2019 at 17:05:52
...
```

Offline Scanner Version Information

Checking version information via the Menu:

- Open TapeTrack Offline Scanner
- Select `Help` > `About TapeTrack Offline Scanner` from the main menu

The version information is displayed under the field `Compiled` in the form of a date.

Click OK or X to close the window.
