TMSSPDFOUTPUTPATH

The Environmental Variable TMSSPDFOUTPUTPATH specifies the output path name when Environmental Variable TMSSREPORTFORMAT is set to PDF output.

The default value is `Report-YYYY-MM-DD-HH-MM-SS.pdf`, where `YYYY-MM-DD-HH-MM-SS` is the date and time the report production started.

Example

```
set TMSSPDFOUTPUTPATH ="C:\Program Files\TapeTrack\TapeTrack Framework Server\var\reports"
```

The default value is `Report-YYYY-MM-DD-HH-MM-SS.pdf`, where `YYYY-MM-DD-HH-MM-SS` is the date and time the report production started.
