

TMSSPPATH

By default, when TapeTrack Command Line Programs use the -S argument and:

1. Specify no password file, and
2. Don't use the prompt or literal password syntax.

then, the password will be loaded from:

- C:\tapetrack\pw\user (Windows)
- /etc/tapetrack/pw/user (all other platforms)

where, user is the name of the user that is logging-on.

When the TMSSPPATH environmental variable is set, the file will be loaded from the directory specified as the TMSSPPATH value.
